Lover's Compatibility Report

How to....

The "Lovers Compatibility Report" analyses the relationship possibilities and compatibility between two people. The left-hand column of the report shows the relationship from the point of view of one partner and the right-hand column from the point of view of the other. This report describes facets of individual character which reveals certain predispositions within relationships whoever the partner is, as well as facets solely evoked by a specific partner. You are encouraged to utilise this report to enhance your positive relationship aspects and transform your negative behaviour patterns to promote optimal success in your relationship.

PROJECTIONS

When there is an attraction between two people there is a powerful tendency to see qualities in the partner which are the projections of one's own idealised picture of the relationship. Should problems arise later the likelihood is that they arise from these projections. This report shows what kind of partner you are attracted to and what to do to avoid evoking negative behaviour in your partner through the previously mentioned projection mechanisms. Greater awareness of these partnership mechanisms can improve a relationship immeasurably.

CONTRADICTIONS

The rest of the analysis deals with the planetary interactions between the two horoscopes. This makes it possible to learn the lessons which this particular partnership has in store for you and to judge the compatibility between the two of you. Please bear in mind that a horoscope—and personal character - are immensely complicated and full of contradictions. Although this report does try to weigh up different contradictory factors, seemingly opposite characteristics may well be listed next to each other. In these cases one type of behaviour will tend to neutralise or simply conflict with the other.

LISTEN TO YOUR HEART

In the comparison of two horoscopes there will always be problematic contacts as well as harmonious ones. From the point of view of long-term relationships, problematic inter-aspects also show compatibility ... there is far more likelihood of a stable bond with many problematic contacts than with no cross-contacts at all. Above all remember that if you have met and fallen for a person then that already shows compatibility, whatever your horoscope says. First listen to your heart, then use what you can learn from this report to improve on what you have.

“Interpretation Guide”

PLANETS

Think of the Planets as directors of a play - they form the story that is being told - so each planet has a story to tell

THE SIGNS

Beside each Planet you will find one of the 12 zodiacal signs listed. Consider the signs as the actors. Where the Planets are the story, the Signs are the actors who play out the story.

♍	Virgo	organisation, analysis	♓	Pisces	selflessness, spirituality

THE HOUSES

Next we look at the houses that the Planets and Sign are in. The House is like the stage where the 'actor' can play out it's 'story'. So let's say that the Sun (story - identity) is in Sagittarius (sign - actor) in the 5th House (House - stage). The 5th House is our fun room where we go to play games, be entertained and have fun - it is also the place of partnerships without contracts. Here is a list of all the Houses and what they represent, so you may refer back to them at any time.

1st House -	SELF ROOM - self absorption, personal projection, appearance
2nd House -	ASSET ROOM - values, self-worth, finances and assets, security
3rd House -	COMMUNICATION ROOM - short distance travel, local network, siblings
4th House -	FAMILY ROOM - foundations, family, ancestors, home atmosphere

9th House -	TRUTH ROOM - long-distance travel, beliefs, higher education, law
10th House -	CAREER ROOM - ambitions, authorities, goals, professional expression
11th House -	CLUB ROOM - social affinities, groups, friendships, political visions
12th House -	SPIRITUAL ROOM - withdrawal, isolation, the divine, the inner worlds

GENERAL BACKGROUND

Diana

Charles

IDENTITY: Though the Sun Sign is obviously a very general factor in relationships, it is - together with the sign the Moon is in - nonetheless powerful. It is important to remember that any Sign can successfully relate to any other Sign. Statistically there are no pre-dispositions of one Sign to another. However the interaction between two Sun Signs will give rise to special pleasures or challenges which will form part of the process of personal development for each partner. Your Sun Sign reflects your personal identity and desire to realise yourself - what is important is whether you feel supported in this quest or not.

Sun in Cancer

Sense of belonging

As a Cancer you are sensitive and emotionally vulnerable with a strong tendency to develop dependence in a relationship. This may mean that you become possessive and sulky when thwarted. Family is a high priority so you are looking for a partner with whom you may establish a safe and cosy haven built around a home and children. You do not want a partner who threatens your emotional security in any way.

In some cultural traditions women have tended to repress their individuality and to project aspects of their personal identity onto their partner. Women with the Sun in Cancer may well be attracted to the emotional kind of man, possessive and moody and aggressively defensive about anything to do with the family. Time will show however that these qualities are actually much stronger in you than in your partner.

Sun in 7th House

Relating to others is a major area of self-expression for you, and you invest your identity in your relationships.

Diana's Sun in Charles's 12th House

You make Charles aware of the importance of subtle emotional and spiritual factors as a basic power behind existence. Circumstances in your relationship suggest that an element of sacrifice or isolation is necessary for your true self-realisation.

Sun in Scorpio

Develop emotional insight

As a Scorpio you are deep and inscrutable. You are looking for emotional commitment and intensity in a partner and you make no compromises until you have found it. You need a partner who appreciates your emotional honesty yet can accept your own unfathomable and rather secretive nature. You cannot tolerate any threat once you have made a commitment - your partner soon learns that flirtatiousness or emotional dishonesty has unacceptable consequences.

Sun in 4th House

You express your identity strongly in your home and family. These things are the axis on which your life turns.

Charles's Sun in Diana's 11th House

You make Diana aware of the need for her to assume a higher profile in her social relations. Your own social position may be an example to her. Through friends and a network of contacts you both discover a greater capacity for expressing your unique talents.

This combination between Water signs - Diana is a Cancer and Charles a Scorpio - is powerful and intense. Both are very emotionally involved in each other and seek security in the relationship. There may be a lot of dependence and jealousy, and perhaps too much emotional turmoil, which stems from lack of ability to see issues rationally. There can be a strong spiritual bond. Sun negative Sun: This is a major factor in the relationship, bringing considerable closeness, though there may be profound disagreement in views and methods. There needs to be constant adjustment to the very different ways in which both experience life and express identity, yet there will always be much in common, both for example experiencing change - concerning identity or creativity - at roughly the same time. The greatest challenge is learning when and how to give the other person the space to express himself or herself. Be generous.

What makes people with the same Sun Signs so different is the contacts to other planets - or aspects - that the Sun makes. The following section shows which planets in your horoscope aspect your Sun and thereby modify your identity - and what consequences this may have in relationships.

Sun negative Moon

Security versus independence

You have difficulty harmonising your need for personal self-expression with your emotional sensitivity. This tends to lead to a rather erratic family life which lurches from periods of consideration to periods of egocentricity. You see the role of father and mother as strongly contrasted, which they do not need to be.

Sun positive Pluto

Being masterful

You have a very strong character with a deep psychological interest in what goes on within yourself and others. You know how to handle power, and tend to be rather autocratic, inspiring respect, if not nervousness, in others. Though quite secretive, you require honesty in your partner; though wilful, you appreciate it when your partner stands up to you. You understand weakness but have no respect for a partner who is weak.

You tend to gravitate towards a man who is indomitable and rather inscrutable - a person who exudes a quiet strength and power. You may be lucky to find such a person, but don't push him too hard - you may discover weaknesses. It is you yourself who possesses these resilient qualities.

Sun negative Pluto

Breakdown, build-up

Your life is characterised by periodic identity crises, in which the past crumbles into the dust and you uncompromisingly create a new identity for yourself. This leads inevitably to battles of power with the people you are involved with. You invest others with power over your life and become totally absorbed in fighting for a control which, in reality, was yours all along. Your partner experiences anxiety and exhaustion acting as an unwilling therapist whilst you go through this process.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. Sun/Pluto: This will be most apparent in the way you deal with power. As both of you fear being helpless and strive for dominance, the true challenge of being together is to free yourself from the tyranny of past trauma and develop compassionate psychological insights.

Your ability to realise yourself, and the attitude that your partner has to this quest for self-realisation, is shown by the interaction between the Sun in the one horoscope and the planets in the other. This has a profound effect on how you are able to express yourself in each other's company.

Diana's Moon negative Charles's Sun

Me or you?

This contact represents a powerful emotional bond between you which intimately affects every aspect of your life. Your relationship is strong but it is not so safe and secure as you would like it to be. You feel very attached to Charles but he may often feel smothered or put under emotional pressure by you. For your part, you tend to react emotionally when he goes off and does what is important for him. If you want greater rewards in your relationship you should support him in his efforts for self-realisation even though you fear this may upset your security. You simply have different priorities on basic issues and as you have the greatest capacity to adjust, it would pay you to do so.

Diana's Sun positive Charles's Mercury

The mental spark

You are fascinated and energised by the way Charles walks, talks and thinks. You find him fun to be with and inspiring to communicate with. Together you like to be on the move, meeting people, travelling or learning. He gets you to lighten up and either see the humour of the moment in some situations or understand what's going on in others. He awakens your curiosity about life and can be a great teacher and an even better student. Apart from being able to mine him for information you can gain insight into your own character, through listening to his ideas and reflections. As a team you would perform well in an advisory role or as information-gatherer and teacher.

Diana's Sun negative Charles's Jupiter

Intellectual pride

This is quite a strong bond which helps you to learn the ways of the world and expands your horizons. Sometimes you are stimulated and impressed by Charles's judgement and opinions

Charles's Sun negative Diana's Moon

Me or you?

Although there is a close emotional bond between you, you will often feel that Diana gets vulnerable or moody when you express yourself and your individual needs. You may find her response rather irrational but the fact is she is concerned about her personal security and that of the family, feeling that you often go off on your own individual trip without much sense of consideration for the deeply-felt needs of others. It is wise therefore to take time to reassure her and explain that what is good for you could in the long run also be good for you both. However, compromises must be made if you want a modicum of emotional comfort from the relationship. Acts of generosity on your part can work wonders.

Charles's Mercury positive Diana's Sun

The mental spark

This is a major compatibility factor which truly enhances your ability to communicate together. Generally you feel a strong respect for Diana, you are curious about her ideas and willing to disseminate them to others. When she takes herself too seriously you know how to make her lighten up, when she is short of inspiration your thoughts can make a difference. This would be quite a good working partnership, in which your role would be messenger and secretary perhaps. You have an active and very mental relationship and this would involve you getting out and about together and making contact with others, communicating or writing.

Charles's Jupiter negative Diana's Sun

Intellectual pride

This is a very stimulating intellectual relationship but there can be some conflict of opinions and ideology. When differences arise you hate to be proved wrong and it hurts your partner's

but at other times you will be exasperated, because you feel you have to defer to these opinions and your pride isn't too happy about that. Even though he can be very persuasive and convincing, his judgement is not always right for you. If you can avoid ideological debate then there can be a lot of humour in the relationship. Unfortunately there will often be times when you differ intensely about matters of principle and this often boils down to intellectual pride. If he wishes to retain the role of advisor, he must learn to respect your right not to follow his advice.

Diana's Sun positive Charles's Saturn

A trusted partner

This contact shows quite a strong bond between you - a bond that grows stronger as the years go by. You see Charles as a mature person, though perhaps a little inhibited. He in turn, likes to give you the benefit of his experience. Together you can build a solid future, and material and business ventures are very well-favoured. Charles can help you to structure your life and make effective plans as stepping-stones to your goals. In this way he would be a very effective manager for you, especially as he does not wish to compete with you for success. He gains satisfaction from knowing he is effective in his support. When you do make progress he will ensure that it does not go to your head.

You will often be called upon to energise Charles when he is feeling weighed down by the past or too negative about the future. Buoyed-up in this manner, he and you make slow but sure progress through life.

Diana's Saturn positive Charles's Sun

A trusted partner

You have a powerful role to play in shaping the identity of Charles. He has a natural respect for you and your life experience, and you may find yourself assuming a kind of parental role - perhaps he finds some safety in being with you. There is a sense of fate or continuity in the relationship which suggests that it can stand the test of time. You may feel that your job is to help Charles reach maturity and you may provide quite severe guidelines in relation to his development. You can be restrictive but he probably benefits from your restrictions. Charles evokes a sense of responsibility in you which also helps you to mature. You could build up quite a strong professional partnership together.

pride if she does not have your approval. Diana often feels that you stand in judgement whilst all she wants is your respect. If you can overcome your intellectual pride and restrict yourself to only giving advice when asked - thus respecting her judgement - then there can be plenty of growth and development. There are many shared cultural interests and a great opportunity for travel. Avoid indulging in or encouraging feelings of superiority.

The meaning of communication is the response you get. Restrict your advice to that which is acceptable to Diana.

Whenever your mood gets dark Diana has the vitality to draw you into the light again.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive: As you are both extremely creative in the area described, great pleasure and satisfaction is derived from that area. This is a shared activity in which you are both skilled and which gives you great mutual happiness. Sun/Saturn: This will be most apparent in how you both cope with difficulties and challenges in your lives. Through developing a positive attitude in the face of trials you set an example for each other.

Diana's Sun negative Charles's Uranus

The Clash

Although this is not a major factor in your relationship you may often be disturbed by unpredictable actions and events precipitated by Charles. This can be very interesting and stimulating for you but also rather unsettling. You will not be permitted to indulge in self-satisfaction - he wants to provoke change in you. This can be a consciousness-raising factor in your life together but there would be more harmony if you were accepted as you are. Clashes of style and personality arise in which you feel quite threatened, as Charles tends to make it

Developing your own unique style and a spirit of experimentation, you can encourage each other in a constant self-development process without trying to own each other in any way.

Diana's Sun negative Charles's Neptune

Fall from the pedestal

This is not a major factor in the bond between you, yet there may be times of considerable confusion in your relationship. This confusion may be of an existential nature and possibly something you have personally wrestled with all your life, which is brought to the fore when in Charles's company. You may experience him to be unclear about who he is, or about his direction in life, even though this might well describe your own situation. He, for his part, tends to give you a misleading idea of who you are and what kind of impression you make. He may express disappointment in you and let you know that you are not living up to his expectations - though this is hardly your problem. In the long term the relationship evokes in you a greater sensitivity, both to yourself and to others.

Charles can go seriously astray in his interpretation of you. Something about you undermines him and the feeling is mutual.

Though not the most important influence in your relationship this contact tends to cloud your view of Charles. Sun/Neptune: This will be most apparent in terms of spiritual growth or development of your creative potential. Overcoming your tendency to have unrealistic expectations, you can inspire an appreciation of the true nature of reality in each other.

EMOTIONAL FACTORS: The Moon represents powerful instincts for security and emotional well-being. At the same time the Moon shows subconscious reaction patterns that can either enhance or sabotage harmony. The Moon shows the kind of atmosphere you create in your home. The emotional environment evoked by the expression of your Moon Sign is of crucial importance in your relationship.

Moon in Aquarius

Caring for humanity

With your Moon in Aquarius you have an electric presence which really peeps up the environment. You are loyal and committed in a partnership, but you definitely don't want to be smothered or prevented from pursuing the friendships which also draw upon your loyalties. Under emotional pressure you freeze up, and withdraw to another planet. You need to tune more into your emotions instead of analysing everything rationally.

Moon in 2nd House

You are most emotionally involved with matters concerning your family economy and may feel very insecure when your material life is in a process of change.

Diana's Moon in Charles's 8th House

You make deep emotional demands on Charles and force him to examine his feelings which, under normal circumstances, would never come to the surface. This relationship brings psychological growth and understanding to you both, though many emotional crises arise. Profound changes in your emotional and economic well-being force periodic adjustments to your life together.

Moon in Taurus

Maintain solid foundations

With your Moon in Taurus you are generally very calm - even placid. You tend to avoid unpredictable situations and concentrate on creating a secure environment, both materially and emotionally. You are stubborn and too slow to adapt to changing emotional conditions in a relationship. Though excellent at giving emotional support and succour, you may fail to recognise the need for development and change in your partner.

Moon in 10th House

You are very emotionally involved with your standing in society and with issues of authority. Your mother probably has a profound influence on you and your direction in life.

Charles's Moon in Diana's 4th House

You are very absorbed in Diana's family environment and roots and she awakens an awareness of your own family heritage and the role it has played in your emotional development. Your house and family-life are extremely important for your sense of security in this relationship.

Moon positive Moon: This contact brings great emotional harmony and a shared appreciation of the kind of habits and environment which make both feel comfortable. As a major factor for compatibility this influence means that Diana and Charles can express their feelings to and expect to be understood spontaneously by each other. Furthermore, changes - both in family life and with respect to moving home, etc. - tend to happen at approximately the same time and be greeted with the same reactions.

This section shows the influence of different planets in your own horoscope upon your Moon - major factors in shaping your emotional life. These aspects from other planets to your Moon will evoke the following subconscious patterns, creating a partnership environment in which you must either sink or swim.

Moon positive Mercury

Mental fertility

You are extremely good at expressing your feelings and you instinctively sense the emotional states of others, allowing them to open up. You have a talent for raising children because you are interested in them and easily tune-in to their wave-length. You learn fast from your emotional experiences with your partner and family.

Moon negative Mercury

Emotions hold sway

You are a very emotional person and this tinges the way you communicate. You may sway other people with your feelings and influence them with your mood, but in stress situations you blow it, losing coherence because your feelings predominate over everything else.

You are instinctively attracted to intelligent and communicative women, but you will often find them becoming emotional or irrational. This is your subjective view - you may be unaware of the strength of the emotions you arouse when you communicate.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. Moon/Mercury: This will be most apparent in the way you express your emotions - which you do constantly by the tone of your voice. You both share the challenge of finding a balance between cool rationality and emotional irrationality.

Moon positive Jupiter

Emotional generosity

You have a magnanimous and warm emotional nature with great tolerance and a fine sense of humour. Travels and cultural events augment your understanding of others. Your positive attitude creates fortunate circumstances both economically, and in terms of your feelings of security.

Moon negative Uranus

Emotional unpredictability

There is an inner emotional restlessness in your nature which tends to disturb family harmony. You are easily bored and you impulsively initiate unpredictable changes in daily rhythms and habits - and this will often unnerve your partner. You instinctively recreate the tensions that affected your own upbringing, upsetting the atmosphere at home. Traditional family life is not for you - you dislike the restrictions which partnership responsibilities bring - so you should go out more on your own and get involved with friends and groups.

Moon positive Uranus

Freedom of spirit

You are a freedom-loving person who consciously avoids a relationship which might become an emotional straightjacket. You seek an emotional environment which supports your need for freedom and allows you to develop your social interests. You are the eclectic type and need a partner who shares your sense of adventure and experimentation.

You feel emotionally attracted to the liberated kind of woman for whom the concept of friendship is at least as important as that of love. Actually, women sense your reluctance to commit yourself emotionally and instinctively give you the freedom you require.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. Moon/Uranus: This will be most apparent in how you deal with your tendency to risk your emotional security because of a general restlessness and need for change.

Moon negative Pluto

Emotional crisis

You have an extraordinarily-intense emotional nature and tend to lurch from crisis to crisis - at least in the early part of your life. You subconsciously re-create the charged emotional atmosphere of your childhood, and your partner is unwillingly drawn into this abyss with you. You are haunted by the conviction that the relationship will not survive, and this leads you into manipulative behaviour, which tends to undermine the very emotional harmony you are trying to protect. You may eliminate these negative emotional habits through therapeutic activities.

The interaction between the Moon in the one horoscope, and the planets in the other, has a profound effect on the kind of atmosphere you create together. This section describes how and where you are emotionally touched by your partner, for good or ill. In this area you are at your most vulnerable and least aware. Conscious work on irrational emotional reactions is the key to harmony here.

Fond chat

This extremely positive connection brings a wonderfully varied life together with a good deal of fun, happiness and harmony. You can chatter on about all manner of things and you will personally feel that you have an ideal listener in Charles. You really feel understood and you also sense that he enjoys listening to you rattling on about your thoughts and ideas. Later in life you will enjoy reminiscing together. The sense of being in mental and emotional harmony permeates much of what you do and is especially conducive to having a family and bringing up children. You create a good environment for healthy growth in children, both intellectually and emotionally. Basically you will agree on most everyday matters.

You are truly interested in how Charles feels and can help him verbalise his emotions. Thus deeply-felt matters are clarified and come out into the open.

Diana's Moon positive Charles's Jupiter

A blessed home

This is a delightful influence, greatly augmenting the potential happiness in your relationship. You will find your fears of insecurity swept away by the positive attitude of Charles, who is very content to assume an optimistic and comforting role in your life. This in turn leads to growth and the willingness to let go of your attachment - especially to the past - and to investigate new horizons through cultural interests, studies or travel. You can really see the world together if you so choose. As regards your emotional development, he stimulates you into gaining insight into your subconscious mind - without pain. This is an excellent contact for children, raising a family and acquiring a spacious home.

Whenever you express your feelings you will find Charles lending a sympathetic ear and bringing reassurance.

Diana's Jupiter negative Charles's Moon

Insight into dependency

Though this is a very emotionally stimulating contact, you tend to be somewhat intellectually dominating in this relationship proffering advice which does not necessarily accord with the needs of your partner. Charles may feel that your moral judgement weighs heavily upon him. However, you are able to open his horizons despite his reservations, and this may mean travel to distant cultures and a considerable expansion in his all-round experience of life. This is a reasonably beneficial influence as regards family and children, but there is a tendency to bring up children according to some dogma to which you are attached. Your solutions may have worked for you but they are not necessarily good for others.

There are no easy solutions for emotional insecurity - try to understand what Charles truly needs.

Fond chat

This contact indicates a warm and stimulating bond between you and is very favourable for the relationship. You feel comfortable together and can talk easily - especially about reminiscences. You feel that Diana understands you and can help you put words to what you feel. You really know how to make your everyday life function harmoniously and you enshrine this knowledge in your cosy habits and instinctive understanding of each other. You have a precious ability to tune in to what she is thinking. This is very positive for the upbringing and education of children together.

When you express your needs and feelings you get a quick and understanding response from Diana, who helps you see things objectively and brings a light touch when most needed.

Charles's Jupiter positive Diana's Moon

A blessed home

This is a most pleasurable influence because you enhance the quality of life for Diana, and the feeling is mutual. First of all she feels understood, and being understood makes her feel secure. Feeling secure, she is capable of providing a very pleasant environment in which you thrive. In return you open many doors for her, and this means that you can indulge cultural interests and especially enjoy tourism and exploration. Diana may develop a dependence on you - especially as regards her education in the ways of the world. She absorbs your insight and vision greedily. This makes you feel clever. This influence is also fortunate for home, family and children - you prosper and thrive.

You are very quick to reassure Diana whenever she is moody or insecure. Your ability to present a positive scenario for the future cheers her up.

Charles's Moon negative Diana's Jupiter

Insight into dependency

This is a stimulating contact which expands your horizons, bringing cultural stimulation and perhaps a good deal of travel together. You are forced to shake yourself loose from a nostalgic attachment to the past by Diana's desire for development and growth. This does not make you feel particularly secure and you may periodically dig in your heels. You find her very persuasive but your instinctive feelings do not often harmonise with her intellectual argumentation. Diana acts as if she knows what's best for you - and when you do not agree you respond by getting moody, thereby effectively countering her capacity to influence you against your will.

You feel Diana does not understand you when you express your feelings - and you don't always want to be understood. Otherwise you might express yourself in a way she could relate to.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Moon/Jupiter: This will be most apparent in your moral attitude and deep-seated emotional convictions, as well as how you open you are to the opportunity which life brings - not least in terms of travel.

Emotional burdens

On first meeting there is a reluctance to get involved. You sense that this relationship entails a commitment that you are not sure you want to make. Perhaps it could be termed a "karmic" bond - there is at least no doubt that being with Charles is a learning process which brings a great deal of emotional difficulty. He does not know how to react to you when you express your feelings - it awakens his latent fears and inhibitions. He thus reacts by limiting your emotional expression and assuming a parental role which can be very limiting for you. Charles wants you to grow up but it hurts - and perhaps he himself should learn to be more dependant and child-like. Once the bond is made in this relationship, it tends to stick, and in the long term this can be a very developmental process for you, if you need to attain more maturity. Together you tend to develop pessimistic attitudes towards the future which encourage an attachment to material things.

Diana's Saturn negative Charles's Moon

Emotional burdens

This is undoubtedly a difficult contact on an emotional level - especially for Charles. He feels himself limited and judged by you ... cornered somehow, by the rigid structures you create which stifle his growth. Perhaps it is because you feel that the child in him needs to grow up and that he can only reach maturity through discipline. In reality your own insecurity is awakened by his emotional spontaneity and the parental role you adopt becomes a way of avoiding feelings and only serves to perpetuate immaturity and dependence. There may well be a strong bond between you, a sense that you know and belong to each other, but you must rise to the emotional challenge - learn sensitivity and vulnerability from Charles - if you are to avoid stunting the growth of the relationship.

When you are negative it has a profoundly depressive effect on Charles. He simply cannot handle it.

Emotional attunement

Though not a major factor in your relationship this is a very pleasant contact which increases creativity and imagination in your relationship. This would be very favourable for artistic or musical pursuits, raising children or enjoying the wonders of nature. Charles really enhances your emotional sensitivity, bringing a new openness into your life and he also evokes your latent capacity for caring and compassion - especially in social matters. You will find him extremely sympathetic to you, but paradoxically this may encourage you to indulge in your emotional ups-and-downs and prevent you from having an objective attitude to your emotions.

Charles's Neptune positive Diana's Moon

Emotional attunement

Though not a major influence in the relationship this contact is important for your inner life and emotional well-being. You evoke deep feelings in Diana, enabling her to express subtle and hidden emotions more creatively than otherwise. You soften the edges of her life and make her aware of spiritual, musical or creative depths, helping her to tune in to rewarding areas of her subconscious life - and this works both ways, as you too become more aware. That said, there is a tendency to lose touch with reality, especially as you tend to idealise certain qualities in Diana which she may not possess. The risk of dashed expectations is there, if you don't keep your feet on the ground.

Diana's Neptune negative Charles's Moon

Emotional mists

Though not the most powerful of influences this contact will nevertheless affect your emotional life together. It is as if being with Charles implies some sacrifice on your part and a kind of unhappiness tinges your relationship. These intangible feelings are evoked in you through being with him, but it is difficult to discern what the precise cause is or to know what to do to lift yourselves out of the fog. These feelings are exacerbated by drugs or alcohol, and during the course of time you may find that it is wise to live a purer life together, so that you may gain emotional clarity. Working to help others whose life is unfortunate in some way, or pursuing spiritual or creative interests, would make good outlets for the energies within the relationship.

Charles's Moon negative Diana's Neptune

Emotional mists

Though not a major factor in your relationship this contact is extremely stimulating for your fantasies. This can be very interesting for you on a creative level but the tendency is for Diana to stimulate your own latent tendency to be unrealistic or moody. Her talent for empathising may simply encourage you to indulge in negative feelings of martyrdom or feeling victimised. Just because you have her emotional support this does not mean that you are justified in feeling the way you do. You may also find it difficult to pin her down in matters affecting your feelings and your security - the truth is that you awaken a measure of uncertainty and confusion in Diana and she therefore finds it difficult to express what she feels and clarify her emotional commitments.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Moon/Neptune:

This influence will be expressed as emotionally oversensitive or confused behaviour - but perhaps too, as shared spiritual or creative interests.

Diana's Moon negative Charles's Pluto

Emotional brinkmanship

Though not a major factor in your relationship this influence will manifest itself at times of crisis. Your latent tendency, to interpret as a fatal rejection other people's detachment, is exacerbated by Charles. When you make an emotional scene - which you often do because you can't work out what he is feeling - he will react in a cool and controlled manner, perhaps probing your motivations in what seems to be an unfeeling way. When ultimatums fly through the air he is unmoved and appears willing to abandon you. Emotional scenes are therefore best avoided - they lead only to exhaustion. Avoid practising therapy on each other. Being with him violently purges you of past negative influences but can lead you without a stable emotional foundations.

You get profoundly disturbed by your partner's reactions to crises - you do not have the emotional resources to help. Charles tends to see issues in black-and-white but don't let yourself be fooled - they aren't.

Diana's Pluto positive Charles's Moon

Emotional spring-cleaning

This is quite a powerful influence on an emotional and psychological level, and leads to a process of shedding the past and reconstructing your foundations. By choosing to live with you, Charles comes under your spell and uses you as a catalyst for a long-felt need for deep-rooted change. This can involve a kind of rootlessness, as growth for him often means casting himself adrift from the well-known anchors of past attachments and previous family commitments. You encourage an inner soul-searching in Charles, and are yourself prepared to release your own attachments if that's what it takes to purge him from his past negativity. Together you may also work for reform in the outside world - especially with regard to social and environmental issues.

You have an deep and uncompromising insight into subconscious factors which govern your partner's behaviour and as such, you tend to assume a therapeutic role in the relationship.

Charles's Pluto negative Diana's Moon

Emotional brinkmanship

This is a very powerful influence on an emotional and psychological level. Being with you strengthens and exacerbates the latent tendency Diana probably has for gruelling emotional autopsies and exhausting outbursts of feeling. You are unnerved by the depth and intensity of her inner life and subconsciously respond by trying to control or manipulate her. Your relationship swings from a deep intimacy with intense erotic overtones to an ice-cold remoteness in which all love seems long-gone. Dealing with these extremes ultimately brings psychological growth and insight, though the cost may be high. At times of crisis there is a tendency to put everything you have built up together at risk, especially through ultimatums designed to ensure her complete capitulation. The desire to assume the role of therapist must be assiduously avoided - leave that to an expert.

An uncompromising and unfeeling attitude on your part produces a deep insecurity in Diana. Do you want this?

Charles's Moon positive Diana's Pluto

Emotional spring-cleaning

This is not a major factor in the relationship but at times of crisis and transformation you will find Diana very supportive on a deep emotional level, especially when you want to initiate change and cut your bonds to the past. No emotional extreme on your part is too shocking for her to handle. This influence leads to psychological growth and maturity, particularly with regard to the purging of demons from the subconscious. Nevertheless, this is not a contact which is going to make you feel comfortable exactly, because she is rooting for change in you and takes an active role in forcing you to exorcise old ghosts. This can be unsettling, not only from an emotional point of view but also with regard to family matters, as she encourages your latent tendency to pull yourself up by the roots and replant yourself in a new environment.

You cannot get away with your habitual emotional reactions in your relationship with Diana. She expects you to get to work on your weaknesses and transform them and will help you in this.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Moon/Pluto: This will be most apparent in how consciously you are able to work on the traumas buried in your past, so that they do not poison emotional harmony in the present relationship.

YOUR SOUL MATE

THE DESCENDANT SIGN: The disposition towards specific kinds of relationships is shown by the East/West horizon in your horoscope - the Ascendant/Descendant axis - and particularly the sign on the Descendant - the 7th House cusp. A person may be attracted to many different kinds of partner, but the horoscope will often indicate a specific destiny with regard to long-term relationships. The lasting partnership will be a mixture of love and destiny - if we are to spend many years together, there will be struggle and growth as well as happiness. This destiny is shown by the 7th house of the horoscope, which indicates personality traits

which we tend to deny in ourselves and are fated to seek in others.

Descendant in Gemini

Seeking mental stimulation

You will attract a partner who is flexible and excellent at making contact with people - someone who is at ease talking to you and who is capable of lightening you up when you take yourself too seriously. This person will be sensitive and moody, with a strong protective streak. Your partner teaches you the importance of opening up emotionally.

In contrast with your tendency to speculate deeply about the meaning of life, your partner may show you the simple pleasures of being with people and getting the conversation to flow, even if this means talking in banalities. There may be times when your partner strikes you as superficial, but people often feel the need to joke around, when confronted with your habit of opining about the deep issues in life. The important things for you are that the partner is intelligent, good at listening, and curious about life in general. Communication and knowledge are central, and you will learn through partnership that it is a two-way process, based on respect for the other person's ideas.

Diana's Ascendant in Charles's 5th House

Your life-style will teach Charles something about how to enjoy life and express himself. He will strive to brighten your life and provide children you can be proud of.

Descendant in Aquarius

Seeking unconventionality

Whilst you spend much of your energy trying to realise yourself in the centre of the world's stage, you are drawn to a partner whose own identity has a lower personal priority. This person will be versatile and communicative with many mental interests. You are brought into contact with many people through this relationship and develop a wide range of mental skills.

Through partnership you are drawn into a social network which is a constant source of enlightenment to you. You will often find your partner involved with friends or special interests, with seemingly little time to devote to you. Actually this remoteness in relationships is partly because you are somewhat self-involved and attention-seeking, and this paradoxically evokes in others a tendency to distance themselves. Through relationships you can learn greater objectivity concerning your life and the direction in which you are going. Issues in the relationship then centre around subjectivity and objectivity, and you learn to appreciate, with time, that everyone feels different and rather special.

Charles's Ascendant in Diana's 8th House

Your choice of life-style awakens a certain anxiety and insecurity in Diana. With time she develops a greater self-understanding and psychological insight to cope with this.

With the Descendant in Gemini, Diana is looking for a partner with whom she can have an intelligent conversation, yet who can at the same time poke fun at her tendency to take herself and her ideas too seriously. Charles, with the Descendant in Aquarius, would like his partner to awaken him and show him new and alternative styles of living. Both appreciate the importance of independence and intelligence, and should get on well.

This section shows the influence of different planets in your own horoscope upon your Ascendant/Descendant axis - major factors in shaping your relationships. These aspects from planets to your Ascendant will give you a specific attitude and behaviour towards everyone you relate to.

Jupiter negative AS

Injustice

You have a forceful intellectual nature, and you are also looking for a partner you can respect intellectually. Through partnership you expect to widen your horizons and have your mental convictions challenged. You are attracted to people with foreign connections. However, you do have a tendency to dominate with your opinions, or to be involved with a person with very strong convictions which you feel you are up against. You get particularly upset over injustice in a relationship, though this can be more imagined than real.

Uranus positive AS

Partner and friend

You like to live a free life, and in your choice of partner you are looking for someone who inspires change in you, and who provides a refreshing new angle on life. You are attracted to people from exotic climes, or to people who live somewhat on the fringe. You are prepared to give a partner plenty of freedom, just as you expect to retain the freedom to indulge the many friendships in your life.

Moon negative Ascendant

Emotional swings

You lead an emotionally charged life and there tends to be a conflict between the direction you would like to take in life and old bonds of dependence. The influence of your parents or environment constantly draws you away from your relationship destiny, and it is unlikely that you can work out a satisfying compromise in the first thirty years of your life. A certain emotional immaturity creates fluctuations of mood in your partnership.

You are attracted to a dependent or possessive woman, whom you imagine hinders you in following the path you have mapped out for yourself. Perhaps this was the way you felt with your mother, when you were young.

Mercury negative Ascendant

Distraction

Communication is a very important aspect of a relationship for you, and you are skilled at making contact and getting the words to flow. However, you often feel misunderstood and lack of confidence may make you unconvincing. You often feel like a lightweight in intellectual matters, but a mastery of real knowledge will win confirmation, so it is just a question of working at educating yourself.

Mars negative Ascendant

Sparring partners

You often feel that partnership matters prevent you from doing what you want to do with your life. In your effort to signal that you do not want to be pushed around, you often end up in conflict - perhaps because your diplomatic talents are not very

pronounced. Your early experience of family and relationships habituated you to an atmosphere of tension, and you reproduce this in your love-life later on. Your assertive manner is wearing, and creates more problems than it solves.

Aspects from planets in one horoscope to the Ascendant/Descendant axis of the partner's horoscope, are major factors showing the strong likelihood of a meaningful long-term relationship. It is these contacts which make all the difference between mere attraction, and the ability to influence each other's lives. You have the following bond:

Diana's Ascendant negative Charles's Moon

Lifestyle swings

This contact shows a very strong emotional bond between you, but brings considerable instability because of the twist and turns in Charles's emotional life. Inasmuch as he invests his emotional security in the relationship, he will feel insecure whenever you change the direction you have mapped out for you both. You may experience him as possessive and over-emotional, and this will continue as long as he is unable to shake off a feeling of dependence. You in turn should strive to remain reasonably detached when confronted by his emotional insecurity, and should wait until things stabilise of their own accord rather than adjust your course to assuage his fears.

It is important that you be firm when initiating major changes in your lifestyle - Charles generally needs time to adjust.

Diana's Ascendant positive Charles's Venus

Pleasuring

This is a very favourable contact, considerably enhancing the romance and sense of well-being which you both feel in the relationship. Charles is at pains to show his best sides to you and will generally try to smooth the path for you, using his considerable charm to facilitate your progress in relation to other people. Material and emotional well-being is a major factor for you both, and Charles will expect to live in a certain style, which you will only be too happy to provide. Love and romance is an essential ingredient in the bond between you, and though family priorities may be important, the need to feel that you are still in love will have dominance.

Diana's Ascendant negative Charles's Mars

Giving a push

This is quite a powerful contact between you both, but although it contributes to a certain attraction, the chances of long-term harmony are pretty slim, though there is excitement to be had. You find Charles quite provocative and there is often a clash of wills. He hates to be told what to do, and constantly makes a point of doing exactly what he wants, when you try to get your way. This leads to conflict and argument. The relationship works best when there is an outer challenge for you both to overcome, and when the pace is hot. There may be considerable sexual attraction, but by itself this influence simply brings trouble.

Diana's Jupiter negative Charles's Ascendant

Different views

This is an important contact in the partnership, and though it is generally intellectually and philosophically stimulating, you are not likely to be in agreement about everything - neither as regards the life-direction which Charles chooses to take, nor concerning your views about partnership. He may respect your advice but he will not necessarily follow it. You in turn should offer your opinions dispassionately and without the expectation that he should necessarily follow them. Your need for further education and travel may conflict with your partner's concepts about what constitutes a committed relationship. Above all your

Charles's Moon negative Diana's Ascendant

Lifestyle swings

There is a strong emotional bond between you, though you do have a tendency to become rather dependant on Diana. Whilst often you are supportive, you also tend to instinctively react in a negative manner whenever she expresses the desire to initiate changes in her life-style. Because of your need for safety and security you get moody when Diana changes direction. From your partner's point of view, your behaviour is irrational - after all you feel most comfortable when she is satisfied with her life. As it happens you adapt to change quite easily when it has occurred.

When your partner acts, you react. You prefer the status quo and therefore get nervous. Learning to accept change without anxiety, increases harmony in the relationship.

Charles's Venus positive Diana's Ascendant

Pleasuring

Yours is a very romantic relationship indeed - perhaps you prefer to consider yourself more of a lover than a partner. Diana is at least captivated by your charms, which bring the satisfactions and erotic spices of the harem into your relationship. Your values and aesthetic judgement enhance the quality of life of your partner, who allows you to dictate whatever style you deem fit for mutual satisfaction. She evokes the loving qualities within you and you respond by bringing good grace and refinement into the time you spend together. You have a strong need for expressions of affection - both emotionally and materially - and Diana is always willing to please.

Diana's Mars negative Diana's Ascendant

Giving a push

You have a powerfully provocative effect on Diana, forcing her to assert herself in one way or another. This makes your relationship very dynamic and as long as there are challenges and activities then it can function. You awaken a strong sexual fascination in her though this can often bring disturbance to her life. There can be too many quarrels and arguments. You like Diana to take the initiative but tend to fight it when she does. Such competitiveness can be wearing in the long run. You should use your energy to inspire and encourage, not to sabotage and provoke.

Different views

This is an important contact between you both, stimulating your intellectual capacities and awareness of the important issues in life. Diana will introduce you to a view of life quite different from the one you are comfortable with, and she will generally expand your horizons and make you question what you do. That said, considerable disagreement can arise because of your different views - especially pertaining to the kind of life you personally choose to live. You may feel she is simply too opinionated, and she should learn that what is right for her is not necessarily right for you.

beliefs will represent a challenge to Charles and require considerable adjustments from his side.

Charles is unlikely to accept the things which move you intellectually and spiritually with open arms, as they may be in conflict with his life-direction.

Visionary path

Though not a major influence in the relationship, this contact awakens you to the magic possibilities in life. You stimulate the fantasy and imagination of Charles, and he in turn subtly alters the way you live your life and your taste as regards what kind of people you want to be with. This is a refining influence, which makes you more aware of subtle life qualities, spiritual issues, the force and beauty of nature, music, the arts, film etc. He is inspired by the life you choose to live - sometimes unrealistically so, which means you may find yourself coming down to earth with a bump.

Charles's visions and dreams strongly influence the way you choose to live your life.

Diana's Neptune negative Charles's Ascendant

Losing direction

This contact is intangible but nonetheless powerful because living with Charles awakens subtle feelings of discontent in your breast, and makes you poignantly aware of the transience of life and the relative meaninglessness of human life, in the context of eternity. Significance comes through spiritual effort and through giving priority to others. Put in more concrete terms, there is a feeling that you can never be sure of Charles or that you cannot build solid foundations in the relationship. Whether it lasts or not is in the hands of a greater power than yours, and this entails developing a deeper acceptance of your own inner nature. What you can do is to strive to be supportive and positive, as he often feels undermined by your feelings of dissatisfaction and unhappiness (though he is probably no stranger to these feelings in his own life).

You often find you have to assert what you want to do in life contrary to the advice Diana tries to give you.

Visionary path

This influence, though subtle, has a significant effect on Diana's life-path and relationships. You have a tendency to idealise her and in doing so encourage her to tune in to the more sensitive and concerned aspects of her nature and thereby awaken her latent creativity and also a kind of spiritual and social awareness. Conversely, Diana makes you more aware of intangible energies in yourself, which are enriching because they awaken an identification with universal forces in the world around you. The emphasis is on collective needs rather than personal, and this leads to a more service-oriented attitude as to how to live your lives.

Your awareness of the need to find a deeper meaning behind the transience of human existence, encourages Diana to adjust her life style accordingly.

Losing direction

Though not a major influence on your relationship, this contact awakens many of Diana's latent hopes, dreams and longings. Many of these dreams are projected onto you in the form of unrealistic expectations. In the long term she may express disappointment at the direction in which your life is going, and this may undermine your lifestyle, and confuse you as to the purpose of your relationship. The bond between you may be characterised by some kind of sorrow or sacrifice, and as such can have a spiritually refining effect.

Diana tends to get disappointed and confused by the direction in life which you pursue.

Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship.

Neptune/Ascendant: With this influence both need to feel that their life - and their partnership - has some kind of spiritual significance.

You have a positive antipathy to superficiality in your relationship with Diana, and insist on an uncompromising emotional depth. In searching for someone to live together with, there is a strong urge to find a person who expresses characteristics which we possess ourselves but fail to recognise and develop. Finding a partner will often compensate for this and make us whole. These characteristics sought in the partner are shown by the planet ruling the sign on the Descendant, and its Sign and House position, and its Aspects. The following section describes the kind of person you unconsciously seek, where you can meet this person - and what behaviour you evoke in the partner through needs unresolved in yourself.

Descendant ruler in 7th House

Partner decides

Your partner will tend to be a strong and self-aware person who will not necessarily choose to conduct the relationship on your terms. On the contrary, you will have to go the extra mile to fulfil your partner's personal needs. Nevertheless, partnership is a high priority for you and brings powerful personal development - precisely because you have to make allowances for the other person. You tend to meet your partner in a social environment in which you meet with others on equal terms, but you do have to go to your partner - your potential mate will not come to you.

Diana% Mercury in Charles's 11th House

Being with Charles stimulates your abilities to make contact with other people and build up a network of friends and colleagues with shared ideals. You facilitate him in making social progress, because of your interest for and curiosity about the people he mingles with.

Descendant ruler positive Sun

A partner to admire

You will feel that your partner may complement you as an individual and may be relied on to show you support and loyalty. You may expect to feel looked up to and admired by your partner. By being with this person you experience a stronger sense of your own identity, and this, in turn, will give you a powerful sense of personal satisfaction - particularly through having children or through any creative activity together. In most matters your partner may defer to you, without losing any personal dignity.

Descendant ruler positive Moon

A partner who cares

Descendant ruler in 11th House

Partner and friend

Your partner tends to be a social type who is also very interested in self-realisation through creativity. This person will be both a friend and a lover to you, and you may be involved in some visionary or unconventional ventures together. Much of your time together will be spent with others socially, and there may be a special responsibility for children who are more connected to your partner than yourself. Partnerships develop surprisingly from friendships.

Descendant ruler positive Moon

A partner who cares

You should feel that your partner is tuned in to your deepest emotional needs. You agree on creating a secure emotional environment to build a home and family. As you are attracted to an emotional and sensitive person, with a bit of luck you will find that you have an unspoken understanding of, and sympathy for, each other.

Descendant ruler positive Mars

A partner with dash

You are attracted to partner who is something of a fighter. This person will be competitive and dynamic and you will enjoy competing with each other. You would simply not be satisfied with a partner who was weak or soft - you prefer the stimulation of battle to the boredom of peace. If a potential partner shows a healthy interest in sex, it is a definite plus for the relationship. You want to be active, take risks and have fun together.

Descendant ruler positive Jupiter

A partner to learn from

It is important for you that your partner shares your interest in travel, philosophy and the need to broaden horizons through cultural and intellectual activity. Therefore you tend to choose a person who evokes your latent hunger for knowledge and understanding. Through your partnership you may gain an optimistic view of life and learn to incorporate a vision of the future into your everyday life together.

Descendant ruler positive Neptune

A partner to dream with

You appreciate idealism and fantasy in a partner and are attracted to a creative person who has many dreams. This person is inclined to renounce materialistic values and see issues exclusively in human terms - being more concerned with the emotional quality of life, perhaps. There is no guarantee that the partnership will be stable but you will learn to develop your own spiritual nature through your relationships.

Descendant ruler positive Pluto

A partner to transform you

Your partner will probably have deep and intense sides and have considerable psychological insight. You are attracted to a person who is prepared to undergo a personal transformation through intense emotional and erotic experiences. Being with your partner facilitates your own powerful drive to shed your superficiality, and reach to the core of your being.

You should feel that your partner is tuned in to your deepest emotional needs. You agree on creating a secure emotional environment to build a home and family. As you are attracted to an emotional and sensitive person, with a bit of luck you will find that you have an unspoken understanding of, and sympathy for, each other.

Descendant ruler positive Mercury

A partner to talk to

Communication is the mainstay of important relationships, as you are attracted to an intelligent and eloquent partner who encourages you and helps you to gain knowledge. Children, travel and a myriad of interests you can talk about, keep your relationship vital and stimulating.

Descendant ruler negative Mars

Provocation as an issue

You are attracted to a person with a fighting temperament and a desire for self-assertion. Yet you often find that your partner's selfish behaviour exasperates you, and you end up constantly skirmishing. This may lead to a spicy sexual life together but creates a lot of disharmony. Through your relationship you can discover your own strength and power, but you do need to damp down your own combative tendencies.

Descendant ruler negative Jupiter

Opinions as an issue

You are attracted to a wise but rather opinionated partner who can expand your intellectual horizons. Unfortunately there are many disagreements about matters of principle and discussions about right and wrong. You often feel unfairly treated and fight for your rights. A relationship helps you define your beliefs and spiritual values, but both of you need to respect the other's freedom of belief.

Descendant ruler positive Saturn

A partner to commit to

You are attracted to a partner with a mature view of life - a person who takes things seriously and assumes responsibility. The partner's attractiveness is increased in your eyes if this person has some status or works hard, because this makes you feel safe and secure. You like your partner to make a long-term commitment to a relationship, just as you are prepared to do. Though this aspect in itself brings more stability than happiness, the longer you are together the more satisfaction you experience.

Descendant ruler negative Pluto

Power as an issue

In choosing your partner you also choose to enter a psychological battlefield which leads to personal transformation and rebirth. You will often be attracted to a person in crisis, and embark on an exhausting healing crusade. In doing so, you subconsciously purge yourself of your own inner complexes. Your focus on emotional intensity and erotic passion needs to be tempered and diverted. Perhaps it is better to let partners sort out their own problems whilst you channel your therapeutic interests into your career.

If there are planets in the 7th House there is then a tendency to meet a specific type of partner and have a specific type of experience. Planets in this house show strong drives in you which may only be fulfilled through contact with another. People expressing this energy are mysteriously drawn into your life, thus giving you the opportunity to get to know the shadow side of yourself.

Sun in 7th House

Someone to look up to

Partnership is an extremely important part of your life, and you define your identity through your ability to relate well. The most important criterion in choosing a partner is your ability to respect and admire the person in question. As you are willing to model your identity on this person, respect is crucial. You choose therefore someone who is prominent in some way - a person with confidence and charisma who exerts influence in society. You tend to lose your identity in your partner, so you must take care that when you find yourself you do not lose your partner.

Mercury in 7th House

Meeting of minds

The most important criterion for you when choosing a partner is the ability to communicate well. You are looking for a person who you can tune into mentally, discuss issues with, and generally have an interesting time with. You are attracted to youthful elf-like types with mischief and humour. You have a tendency to evoke superficiality in your partner because of an unconscious desire to avoid deeper issues. Partnerships often bring a special dilemma connected with choice between two people. Marriage for you is a mutual learning process and a meeting of minds.

LOVE AND SEX

ROMANTIC NEEDS: Whatever kind of relationship you commit yourself to in the long term, you have certain values which reflect your personal taste and inclinations, when choosing whose company you wish to enjoy. Should your partner not satisfy all your social needs, you will seek fulfilment in friendships and other connections. These social and romantic needs are reflected by Venus in your horoscope. Not only does Venus show what qualities you value in others, this planet will also reflect feminine self-esteem in a woman's horoscope, and the type of woman which a man is attracted to in a man's horoscope. For both sexes the position of Venus will show specific types of experiences in love - and what to do about them.

Venus in Taurus

Protect your values

You are a sensuous person with a strong need for closeness and comfort in personal relationships. You express your feelings physically, and have the ability to enhance the quality of life in partnerships - perhaps because you are so good at appreciating and savouring the moment. You like material things, and concrete expressions of affection as well as a good economy are certainly no hindrance, when you are assessing the qualities of your loved one. You are looking for stability and security.

Venus in 5th House

You have an extremely winning way of projecting yourself and this makes you a popular and well-loved person. You express yourself in a warm, natural and sensuous manner, and often gain material rewards via relationships. You need a lot of feedback with regard to your attractiveness, and may actually be rather flirtatious and attention-seeking. This will result in love affairs during the course of your life and, indeed, there is nothing like a romance to add a little spice. Having children provides a

Though a long-term relationship is important for you, you expect the aura of romance to be there constantly, and are prepared to do something about it if you feel it is missing.

Domestic harmony

You express the warmest of affections for your family and are very attached to your home. You express yourself with grace and style in this area, and have little difficulty using your social talents to achieve results. Your attitude to relationships stems from the nature of the bond of affection between your parents. Beneficial childhood influences lead you to preserve old bonds and strive to create an atmosphere of harmony in the home. You like to surround yourself with beautiful things in your home.

Charles's Venus in Diana's 9th House

You can introduce Diana to the beauty born of a greater understanding and the importance of balance in her spiritual life. You bring cultural depth and the magic of foreign countries. Travel awakens the loving spirit between you.

With Venus in Taurus Diana is sensual and faithful by nature, with a strong need for security, both romantically and materially. Charles, with Venus in Libra, has a strong femininity - as has Diana - but it is expressed on a more aesthetic and social level. Diana is more physical and is more concerned with immediate personal bonds, whilst Charles is very interested in other people, and skilled at handling diplomatic relations.

Your capacity to give and receive love and your sense of self-worth are modified by contacts from Venus to other planets in your birth chart. These aspects reflect the many nuances in romantic taste, showing which particular brew of influences go into forming your personal judgements. The following section shows what attributes a person must have to be romantically attractive to you, and how your own personal values influence your love life.

Venus negative Sun

My love or me

Your romantic needs are often at cross-purposes with your conception of yourself as an individual. In other words, you may find yourself doing something for love, which is not in accordance with the rest of your character. As a result you sometimes feel unworthy of attention.

Venus negative Mars

Love or sex?

You have an attractive and erotic aura which predisposes you to amorous adventures. In long-term relationships however, a dichotomy arises between your need for the expression of love and affection, which makes you feel valuable and wanted, and a strong sexual drive, in which carnal desires are paramount. You unconsciously send over-intimate signals to members of the opposite sex and subsequently cannot understand why they make a pass at you. The concept that men give love to get sex, and women give sex to get love, is something you can subscribe to.

You have a strongly erotic nature and a powerful sexuality. However, you tend to project the physical side of your nature onto your male partner, saying to yourself that he only wants you for your body. This is just a comfortable female convention - time will show that sex is just as important for you as romantic love.

Venus positive Mars

Love and passion

You have a natural and perhaps playful attitude to the opposite sex. You like to have fun with your partner and to get out-and-about and do things. Whatever else may be true, your erotic needs play an important role in your love-relationship. In sexual matters you are spontaneous, and feel no split between your sexual and romantic nature - it is natural for you to express your love through passion and desire. There is a great potential for you to enjoy your relationship on both the physical and spiritual level.

As a man you have a special ability to integrate yourself with the feminine side of your nature, and this will enable you to spontaneously establish a very close contact with women. You will often feel attracted to a woman who is independent and has distinctly masculine qualities.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. Venus/Mars: This will express itself in the magnetic attraction you feel to members of the opposite sex and the ease in which you express both the masculine and feminine sides of your natures.

Venus positive Jupiter

Cornucopia of love

You are an extremely loving and romantic person and this brings both benefits and problems. Charles has difficulty accepting your judgement whilst you feel you know instinctively what is right in any given situation. He may conceal his lack of ability in this area through bluster - but you know how to get around him with good grace. You can get what you want through your charms and are careful not to hurt your partner's pride. You tend to rely too much on each other for declarations of admiration and affection - this is no substitute for mutual respect, which is the hallmark of a lasting relationship.

Diana's Mars negative Charles's Venus

Love, or lust?

When you meet Charles a spark is ignited which can quickly develop into something passionate. You are fascinated and challenged by somebody who expresses his romantic needs quite differently from how you might expect. This stimulates your urge to conquer. As the sexual attraction is strong, tentative advances quickly get physical, despite any differences there otherwise may be between you. It is important not to confuse erotic desire with love and this will be something of a dilemma throughout the relationship. Charles needs to see, hear and feel expressions of love - he wants the spirit of romance - but you tend to storm on regardless, driven more by physical desires. In the long term you are confronted by the disparate needs of man and woman, and harmony in the relationship depends on your learning how to negotiate this path between the sexes, so well-known and familiar, yet so fraught with difficulties.

This influence brings a lot of excitement into the relationship, which is characterised by a mutual freedom and respect for each other's individuality. You, in particular, sing the virtues of friendship without possessiveness, seeing your love as a vehicle for self-development and consciousness growth. There is something about you which is constantly surprising for Charles. He finds himself having completely new experiences under your influence - perhaps because you are so different or because you introduce him to new countries, new ideas or new people. You tend however to maintain a certain coolness or emotional distance which may not accord so well with your partner's need for intimacy and commitment.

Diana's Venus negative Charles's Pluto

Slave to love

This contact tends to bring out latent impulses in yourself to invite crisis into a relationship through deep fears of not being valued. You may feel the need to indulge in manipulative behaviour - especially through the power or either sexuality or money - and create a flawed bond to your partner designed to maintain your security. You may sometimes find that Charles's response to your affections is cold, and you may fear that there is suddenly no love between you. Actually you awaken his own anxiety and jealousies. And he tends to respond by exerting his power to maintain control over the situation. Deep psychological issues are at work here. Do not allow yourself to be bought or sold, or humiliated by love or sex. Do not let your worth be defined by your partner. One of the functions of this relationship is to force you to reassess what is truly worthwhile in your life.

You seek to heal psychic wounds in your partner through love. This helps up to a point, but don't exhaust yourself.

though there are dangers that this can lead to over-dependence and a smothering relationship. You simply feel comfortable with Diana, experiencing a bond of affection which goes far beyond logic. She is very sensitive to your needs and is capable of giving you constant emotional support.

You have a real ability to make Diana feel desirable, and your aesthetic judgement and ability to create harmony around you generates contentment in the relationship.

Charles's Venus negative Diana's Mars

Love, or lust?

There is a strong magnetic contact between you, partly based on sexual attraction. If you are in a flirtatious frame of mind, Diana is prepared to take you up on your promises - sparks fly and much excitement is to be had. You are looking for love and confirmations of your attractiveness from your partner. Confirmation you will get - but perhaps not in the way you would like, because Diana's attraction to you is strongly sexual. This can spice up a relationship which has other stabilising factors, but in itself is not enough to build upon. You do not exactly feel secure with Diana, and she can be jealous or domineering in her relations with you. However you will rarely be bored.

In the long term Diana tends to act in a manner which contrasts with your romantic needs, storming ahead when a more tender and considerate approach would have had better results.

Charles's Venus positive Diana's Uranus

Airport romance

This relationship brings excitement into your life and evokes dramatic personal growth in you - partly because contact with Diana often means learning about new countries, cultures and ways of living and partly because together, there is a strong desire to develop personal consciousness. The key word for your relationship with Diana is freedom and there is a general understanding that neither of you has the right to decide over the other. Being in love does not rule out external friendships, and you can both develop an independent social life. Your life together is electric and unpredictable, with a natural spontaneous eroticism and a willingness to experiment and take risks. Under these circumstances boredom is scarcely possible.

Charles's Pluto negative Diana's Venus

Slave to love

This influence intensifies any latent tendencies Diana has to feel anxiety and desperation over her love-life. A deep-seated insecurity in yourself about sexuality, control and loss, often subconsciously drives you to assert your power over her. This means that the relationship is characterised by dependence and control and feelings of jealousy predominate, either secretly or openly. As sexuality is the battlefield on which these emotions are played out, your intimate relations will be passionate and intense. Taboos will be broken. It is as if you both need to go beyond accepted limits in order to really get in contact with your emotions, and there may be considerable power-play in your sex life. Lack of trust may plague your social relations, and a tendency to make the relationship a life-or-death issue means you may lurch from crisis to crisis. This will also create economic insecurity. You must divert the urge you feel to transform and control Diana into a softer and more accepting style.

At times of crisis you tend to misuse your power in the relationship through totally withdrawing loving feelings and creating an icy atmosphere. In the long term this leads to the death of love.

DESIRES: Sexuality is an essential ingredient for long-term satisfaction in a relationship, and this is shown by Mars in the horoscope. For a man this planet will also symbolise his masculine identity, whilst for a woman the sign Mars is in, and its aspects, will often show the kind of man she is attracted to. Mars will also show how you work together, and your ability to fight for what you need. Where Mars is, there is trouble, because issues of survival and self-assertion are paramount. In our civilised society both sexes tend to repress Mars - though women will do this more than men - and this may often mean that one's own aggression or oppression comes to expression in the partner's behaviour.

Mars in Virgo

Develop organisational talents

You are hard-working and a perfectionist. With your highly-developed critical sense, conflicts may arise concerning duties - particularly housework. You have to control a tendency to bicker and fight about trivialities. Cleanliness and even prudishness may characterise your attitude to sexuality, but you enjoy physical contact and can be quite sensuous. It is important for you to feel respected for the work you do. Too much criticism, both of yourself and your partner, tends to upset the harmony between you.

Mars in 8th House

Subterranean passions

You have a driving need to express your energies, uncovering the deepest emotional factors. You feel that there is a tremendous amount of work for you to do in this area and tend to get weighed down by everyday tasks and worries. Your life is one of subconscious passions which you may express yourself - or more likely evoke in your partner. Insecurities and jealousies tend to dominate, either because you choose a partner with powerful instinctual drives or because of secrets and repressions which tend to undermine your emotional peace of mind. You expend energy trying to control your partner and you often use the considerable power of erotic desire to do this. Sex is the battlefield on which you purge your deepest drives. With time, the psychological insight you gain, helps you reduce the casualties.

Diana's Mars in Charles's 2nd House

There is probably a strong physical attraction between you and Charles as you tend to stimulate his desires as well as inspire him to make greater efforts - and also take greater risks - to improve his economic situation. Meanwhile, you work hard trying to protect and fortify your partner's material situation.

Mars in Sagittarius

Widen your horizons

You are a dynamic truth seeker, and nurture strong opinions on many matters ... and you are prepared to fight for them. Something of a pioneer, you enjoy travel and adventure, and cherish the spirit of freedom. You are a fighter for causes, a strong believer in right-and-wrong and the principles of justice. In relationships, quarrels easily arise if you feel unfairly treated or where there are disagreements over matters of principle. You tend to insist on being right, or on giving your opinion when not asked. Give your partner a better hearing.

Mars in 5th House

Pushy romance

You have a sparkling and direct way of expressing your energies and make quite an impression on other people when you choose to. This is an area in which you strive to gain understanding and expand your horizons - both intellectually and through travel. You also have a certain erotic charisma whether you are aware of this or not, and this means that you may easily attract potential love-affairs. You need to feel the tension associated with erotic attraction, and you can spend a lot of energy in pursuit of bodily pleasures which as far as you are concerned add spice to life. To ensure stability in long-term relationships you need to channel this energy creatively - either with children or in a profession which requires forceful self-projection.

Charles's Mars in Diana's 1st House

You provoke and galvanise Diana and make her irritated or inspired, depending on whether you are being destructive or constructive. She is goaded into action by your encouragement or pushiness, just as you can feel exasperated by what you consider to be her periodic lack of initiative. Your influence makes her far more daring.

With Mars in Virgo, Diana is a busy and hard-working person, with a pronounced ability to find flaws, both in herself and in her partner. Charles, who has Mars in Sagittarius is more concerned with the big picture, and hates to be hung up with everyday concerns. Charles is frank and direct, and responds in kind when criticised. He is looking for an intellectually stimulating relationship with the possibility of travel and excitement. Mars positive Mars: This contact shows harmony in styles of action and erotic needs. Both will display the same kind of dynamic expression, similar urges to overcome obstacles and similar methods when it comes to self-assertion. When they work together they work in harmony, when they are in conflict they use the same weapons.

Your ability to express your will and desires is considerably modified by the influence of other planets in your horoscope upon your Mars. These aspects show how you might best express yourself sexually and the kind of problems that may arise when you do. For women, aspects to Mars will often describe the behaviour of the man in the relationship. If this appears to be so, then projection is at work. By learning to be more clear-thinking, and asserting your genuine needs, these negative projections may be eliminated or at least modified.

Mars negative Moon

Quarrelsome

You are a dynamic and fearless person, willing to accept a measure of risk in your life. There were many family battles in your own upbringing and as a result, you tend to react by being

Mars positive Moon

Vigorously caring

You are a dynamic and emotionally spontaneous person with a fierce need to protect those who are near and dear to you. A home-builder, family maker and intrepid fighter, you know how to

overly defensive, or by being aggressive, when you are under emotional pressure. This is not the way to defuse tension; it only leads to escalating conflicts with your partner. By learning self-control and by being more conciliatory, you may overcome your irrational anger which appears to be inherited from your mother.

You are often tormented by extremely strong emotions and this may make you short-tempered and irritable. Men in your life may be strongly provoked by your emotional reactions, which they cannot understand. Procreativity and family life bring troubles - perhaps because you are not at ease with your role as a mother.

create an exciting environment with great potential for growth. You rise to - and enjoy - every challenge and convey an enthusiasm which lifts those around you. You may be temperamental and emotional, but you cannot be boring.

You are attracted to a strong woman who shares your family values and who is prepared to struggle to build the kind of home which is important to you. For you, sexuality and procreation go hand in hand.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship.

Mars positive Mercury

Repartee

You have a sharp and witty mind and are full of ideas which you are eager to put into practice. You may be caustic but you are always stimulating. A dynamic traveller and avid learner, you probably have a wide network of friends and acquaintances. Always active, you may be involved in many projects and are always learning something new. In your partnership you need someone you can talk to, bounce ideas off, and do exciting things with.

You are attracted to intelligent and knowledgeable men who may stimulate your need for learning. A number of men may fulfil this role during the course of your life. The education of children may be of particular interest to you. Erotically, you need a man who masters pillow-talk.

Mars negative Mercury

Mind like a rapier

You have a sharp and witty mind - perhaps even a naughty one. An eager and dynamic student, you are a restless gatherer of information. In your relationships you argue much too much. Your voice has a cutting edge because you are determined to be heard. Little things irritate you and you feel that you have to put people straight. You argue aggressively for your ideas, tending to put people on the defensive. Remember - the meaning of communication is the response you get. It's not worth winning an argument and losing a friend. Silence is golden.

You tend to be pushy and impatient, hammering your point home and imagining that every comment your partner makes creates the opportunity for a verbal duel. If you are tired of the tension around you, you should practise verbal restraint.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship.

Mars negative Jupiter

Bully boys

You have a strong sense of freedom and an adventurous nature. You are motivated to explore your world and widen your intellectual horizons and this may bring travel, absorption in studies and wide cultural interests. You have very strong opinions and are very persuasive - it is important for you to be right and you fight hard putting your point of view across. Arguments often arise when you feel that someone is being unfair or acts stupidly. You have a tendency to adopt a bullying tone and have difficulty entertaining the idea that you might be wrong. Your self-righteousness is a threat to your relationship.

Mars negative Uranus

Trouble, trouble

You can be extremely unpredictable at times, acting impulsively and recklessly just for the sake of excitement. You have an explosive temperament and your extremely provocative behaviour tends to alienate the one you love and create a lot of nervous tension between you. Your partner may feel that

Trouble, trouble

You can be extremely unpredictable at times, acting impulsively and recklessly just for the sake of excitement. You have an explosive temperament and your extremely provocative behaviour tends to alienate the one you love and create a lot of nervous tension between you. Your partner may feel that

anything may happen at any time, and feel threatened by you, either physically, or because you always seem on the point of walking out. Any violence in your life tends to be brought about by the attitude you have. You should find an unusual area of interest - something unconventional or rather dangerous, perhaps - pursuing some activity from which you can obtain the excitement you need in a peaceful way.

Any violence in your life tends to be brought about by the attitude you have. Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - negative: As this shared aspect is difficult to handle for you both, you will both manifest the behaviour described, making it hard to know who is responsible for what. Unhelpful behaviour tends to be perpetuated unless you both recognise your specified failings. Nevertheless there will be much excitement and growth in this area. Mars/Uranus: In this respect the important challenges for you both are in channelling your needs for excitement, travel, change and dramatic personal development, whilst avoiding provocative and inconsiderate behaviour.

Mars positive Neptune

Going for the dream

You are a very idealistic person with many dreams and visions concerning how things should be in the world - though there is no guarantee that you have the will to put your visions into practice. In relationships you are helpful and well-motivated, though this energy is often channelled into creative or social projects. You imagine the best in others but are often cruelly disappointed in their behaviour. However, seen objectively, your own actions are often far below your professed ideals.

Mutuality - positive: As the shared aspect is positive for you both, it will give great happiness, and give you both a pool of resources to draw from. You will share the same area of interest and activity, and agree in your outlook on this area. Mars/Neptune: In this respect the important challenges for you both are in channelling your energies solely into areas which truly inspire you and to maintain a morally pure existence. This involves dispersing the emotional mists in your mind which cause you to project your own weaknesses onto your partner.

Mars negative Pluto

Bending to your will

In relationships you use your incredible willpower to engineer situations in which you feel secure. And, as you are plagued by jealousy and anxiety about losing power and feeling helpless, your romantic harmony is poisoned by your compulsive need to control every aspect of your partner's life. In your efforts not to be weak you are overwhelmingly dominating, though occasions inevitably arise when you feel humiliated. Your biggest enemy is your desire-nature, which is so compulsive that something has to give. Deep transformations will occur which bring you the psychological awareness necessary to be truly the master of your fate.

You are attracted to a jealous and intense man who is driven by his erotic desire for you. Exhausting battles of will take place in the relationship, resolved by possessed lovemaking, until the next crisis arises. Initially you may feel subjugated by your partner, but as time goes by an amazing reversal takes place. Your man loses his power and you seem to assume the dominating role. You lose respect because he does not match you as a sparring partner. He begs. He shadows you, terrified that you have found another as the object of your desire. This pattern will tend to affect all your relationships until you do the therapeutic work necessary to unearth hidden traumas within you.

Mars positive Pluto

Power-play

You are a powerful person - of that there is no doubt - and have a steely will which ensures that you get your way when you put your mind to it. Generally you are motivated to create positive change in your environment and fight corruption. Sexuality is extremely important for you in a relationship and you have a magnetic, even hypnotic aura which may exert a mysterious hold upon your loved one. You have the power to completely ignore sex for a period, whilst at other times you are possessed by its attractions. You tend to take control when making love and feel uncomfortable in a passive role - and this may hinder orgasmic release. Through sexuality, deep transformations take place in many areas of your life.

During your life you have learned to handle power - perhaps because you had to overcome a number of situations where you were powerless as a child. Power games may still affect your intimate relationships - especially sexually. You refuse to show weakness but this means that you may seem autocratic. A woman feels she has to bend to your will. Nevertheless, your positive attitude towards personal change ensures that you constantly seek to improve your sex life, and this ultimately leads to deep insight into the nature of your desire.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. **Mutuality - positive/negative:** Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. **Mars/Pluto:** In this respect the important challenges for you both are in channelling the strong passions which well up from inside and threaten to take precedence in your behaviour. Dealing with your desire-nature and overcoming negative emotions is achieved through psychological insight and sheer hard work.

The interaction between Mars in one horoscope and the planets in the other, has a profound effect on how you are able to express your will and fulfil your desires. These contacts will also show what form of sexual expression characterises the relationship. Also you may expect both conflict and excitement in the areas specified in this next section.

Diana's Mars positive Charles's Moon

Domestic activity

Your life together with Charles is a hive of activity as you are strongly motivated to work hard to make him feel more secure. In return for your industriousness he creates an environment in which you can thrive. This influence describes the home-maker and pioneer and creates fine circumstances for children, family and home activities in general. In itself this contact is neither romantic, nor especially peaceful. You probably derive some enjoyment from provoking Charles - albeit in a good-natured manner - so the relationship seldom gets boring. You will find him very understanding and supportive.

You will often find yourself trying to cheer Charles up - when he gets moody you are inclined to divert him through proposing some activity. This may or may not work.

Diana's Moon positive Charles's Mars

Domestic activity

This is a very stimulating contact which increases activity and dynamism in the relationship - there will be stormy moments but these blow over quickly. There is little danger of getting into a rut here, whether you are active around the house or with the family or out on expeditions, together you are like a dynamo - and the wheels are spinning fast. There is an element of restlessness too, but you make a creative couple if you can channel your energies in the right directions. There is a strong sexual attraction on an instinctive level. The energy of the relationship can lead to stormy episodes but it also ignites the erotic spark between you.

You experience Charles as full of initiative and you automatically respond in a supportive manner. Together you get things done fast. You respond to sexual initiatives by being mothering.

You will often find that Diana responds to your needs by taking the initiative and getting things done. Her solution to problems is activity, rather than introversion. She is turned on by your mothering side.

In return for your industriousness she creates an environment in which you can thrive. In itself this contact is neither romantic, nor especially peaceful. You probably derive some enjoyment from provoking Diana - albeit in a good-natured manner - so the relationship seldom gets boring. You will find her very understanding and supportive.

You are the one who constantly takes the initiative and this means that Diana constantly has to adjust to new circumstances. This can be fun but unsettling.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive: As you are both extremely creative in the area described, great pleasure and satisfaction is derived from that area. This is a shared activity in which you are both skilled and which gives you great mutual happiness. **Moon/Mars:** This will be most apparent in the way in which you handle your energy and impulsiveness - and not least your temperament. Dealing with irritation in a mature and understanding way is a challenge for you both.

Diana's Mars positive Charles's Mercury

Good-humoured jibes

Your relationship is characterised by extremely active communication and a lively ping-pong of ideas back and forth. On the one hand you indulge in light-hearted banter together whilst on the other there is a strong drive to investigate and explore the world of ideas and knowledge. Contact with others, education and travel are uppermost in your minds. No sooner do you hear Charles express his ideas than you want to translate them into actions, so together you make a dynamic and intelligent couple. This influence in itself is not particularly romantic or emotional - it simply emphasises the importance of communication and intelligence in the relationship and demonstrates an ability to raise the spirit through humour and pranks.

Diana's Mars positive Charles's Jupiter

Gung-ho!

You are turned on by Charles's expansiveness and intellectual capacities. Being together is a tremendous energy boost for you and you are inspired to do daring deeds, to travel and explore and to widen your philosophical horizons. You love nothing better than having a mental joust with him and whilst you always rise to the mental challenges which he presents to you, you will often find him to be your intellectual superior - and this is the way you want it to be. He wants to be respected for his wisdom, so you will encounter educational challenges in those fields which he shines. Excitement and adventure are important ingredients in the relationship and you derive great pleasure from cultural discoveries. On a physical level there is a strong emphasis on a healthy and satisfying sexuality.

Charles provides you with perspectives of the future and this galvanises you into action.

Diana's Jupiter negative Charles's Mars

Intellectual provocation

This bond creates a lot of energy and excitement in the relationship but there is likely to be disagreement about matters of principle and arguments about individual points of view. Charles experiences you to be rather too judgmental whilst at times you see him as immature and ill-considered. There can be conflict about matters of intelligence and when you take the role of being all-knowing, this has a very provocative effect on him - it is precisely at these times he seems to be impulsive or immature. He tends to adopt a bullying approach whilst you retreat into your moral high-ground. If both of you exercise restraint there is a lot to be learned and much adventure to be had. If moral reservations are overcome - and they generally are - there can be a considerable sexual appetite.

You have difficulty grasping what it is that motivates Charles, neither will your attempts to guide him have much effect.

Charles's Mercury positive Diana's Mars

Good-humoured jibes

In matters of communication and activity your relationship can hum like a well-oiled machine. Ideas bubble away and neither of you is short of suggestions as to what to busy yourselves with. There is a lot of discussion in this relationship but generally you and Diana resolve hearty disagreements in a humorous fashion with light-hearted gibes and banter. You can help her get things done in a myriad of ways because you are flexible and full of ideas. This is a very mentally stimulating contact which can result in learning, outdoor activities and a good deal of travel.

You are full of insights and good advice when Diana goes into action. Together you make an inventive and effective team.

Charles's Jupiter positive Diana's Mars

Gung-ho!

Being with Diana is very exciting and stimulating for you and evokes your latent need for adventure. Together you will want to explore - both on an inner philosophical level and outwardly, with pioneering ventures to the far corners of the earth. You may engage the help of your partner in any study program which might be important to you and she will provide the energy and initiative, which you may lack. Some form of intellectual or spiritual pursuit will characterise your relationship. Generally speaking your appetite for life is increased through being with Diana and this should also come to expression physically, with a healthy indulgence in sexual athletics. There is a harmonious union of mind and body.

When you express your visions about the future Diana responds by immediately suggesting a course of action.

Charles's Mars negative Diana's Jupiter

Intellectual provocation

There are strong ideological differences between you and this can result in long discussions about matters of principle. You may find this stimulating - and it can be if you keep a sense of perspective and humour. You are looking for an intellectual capability in Diana which she obviously has (otherwise you would not be with her) but which you constantly challenge. Unconsciously you tend to set up situations in which she fails to live up to your expectations and this results in Diana pontificating and you rebelling against her supposed intellectual authority. Nevertheless you can expect the relationship to be exciting, with a good deal of travel and adventure. There is a considerable sexual appetite - many differences of opinion are resolved this way - yet there are often moral dilemmas connected with your sexual life. You enjoy challenging the norm.

Diana soon puts your tantrums into perspective - it may irritate you but you can learn a lot from her way of seeing things.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Chisel and granite

You experience severe restrictions in this relationship and this forces you to develop an extraordinary self-restraint and self-discipline - at least if you are looking for a long-term bond. Charles frowns upon any manifestation of your spontaneity, postulating that it is a sign of your immaturity. In actual fact he feels threatened by your ease of action and subconsciously strives to place limits upon your freedom. You in turn find him to be autocratic and inflexible and resort to rebellious behaviour - which of course gives the impression of immaturity. Nowhere does this battle of will come more to the fore than in sexual matters. By resisting your advances Charles asserts his authority over you. This leads to you stubbornly fighting against your own sexual impulses. To overcome impotence or frigidity in this area, you must see that a good sexual relationship is in both your interests. Keep conflict out of the bedroom and be energetic, yet patient, in your foreplay. This relationship is characterised by hard work and ambition - yet it is essential to take time off to enjoy the fruits of your labours.

Thrills

This is an exciting and unconventional relationship characterised by dynamic consciousness-growth and constant experimentation. Charles brings a touch of the exotic and unpredictable into your life, and, turned on by the thought of danger or excitement, you find yourself acting in new ways and investigating new directions. Together you find original ideas to work with. Principles of freedom are extremely important for him, and this in turn gives you considerable scope to express yourself creatively. Periodic separations in which you both do your own thing suit you fine. Long-distance travel or journeys to-and-fro can be integral elements of the relationship. That's OK by you.

This contact guarantees excitement in the relationship. Together you are inspired by the spirit of exploration and adventure. This can either take place in the inner world of personal growth or the outer world of travel and exotic challenges. You encourage Charles to take more risks and to expand his personal boundaries beyond the limitations which a conventional relationship might impose. Sexually there is an almost electric attraction, which means that the more unlikely the situation, the more stimulated you are. There is plenty of room for experimentation here and all goes well, just as long as sex doesn't become routine. Together you have the courage to take the unpredictable twists and turns in life, so that nothing is likely to become routine.

Initiatives taken by Charles soon lead you into unexplored avenues of adventure.

This is a powerful but exceedingly difficult contact which is characterised by insecurity, friction and control. Initially there may have been a pre-destined element in your attraction to each other and a conviction that you could overcome whatever difficulties arose. Time shows that this is not so easy - you feel threatened by the spontaneous energy of Diana and try to dampen, discipline or channel it. She feels intolerably restricted and bitterly resents your authoritarian approach. The most serious battles are fought in the bedroom, resulting in long periods without sex, or struggles with erotic expression. Try loosening the ropes. Another difficult area is in differing attitudes to work and duties. This relationship constitutes a challenge to you both which takes time and patience to solve. You must confront your fear and Diana her anger and deal with frustrations openly.

You often censure the actions of Diana out of hand, and this can be wearing for you both.

Quagmire Working on visions

It is not easy for you two to work constructively together. Misunderstandings abound because you tend to go into action with an unclear idea of what is required, and because Charles is very vague about what he actually wants. Your energy is diverted unproductively, and often into morally questionable areas. Strive to maintain high standards - together you tend to cut corners in ethical matters. It is no use looking to him for leadership or direction. Choose your own course. You get bogged down in discussions. Do not be deceived - he gets confused when confronted by your dynamism, and reacts by clogging up the works or by suggesting goals which are completely over-idealistic or unrealistic. Sexual harmony is also elusive as Charles often finds your desires too earthy and longs for a "spiritual" union. This too is illusory; development of greater body-consciousness would help you both. Health matters may be in the forefront. Be aware that alcohol and other addictions have a negative effect on this relationship.

Quagmire

Though not the most significant influence in the relationship this contact may awaken a tendency - which may be latent in Charles - to allow his imagination to go over and beyond conventional limits. Without constraints on what is permissible there is a great risk of depletion of energy for you both. Over-indulgence - especially in terms of substance abuse, questionable sexual activities or the unrestrained pursuit of desires - will have long-term consequences. This can for example be the undermining of the will to achieve or simply a dissolution of any sense of direction. On the other hand, through the application of the will to achieve idealistic, social or creative visions, you may both have considerable success. Sexually there may be discontent based on a dislike of routine, habitual sex and a longing for the romance of seduction. You may feel an antipathy to the primitive aspects of intercourse and long to transcend your physical desires. Learn then, about the spiritual aspects of eroticism.

Health matters may be in the forefront. Be aware that alcohol and other addictions have a negative effect on this relationship.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality-negative: Both of you struggle with a mutual influence which subjects you to considerable stress and tension. This area will be a subject of conflict and disagreement, yet your struggles will bond you to each other, ultimately leading to a transformation of the behaviour in question. Mars/Neptune: In this respect the important challenges for you both are in channelling your energies solely into areas which truly inspire you and to maintain a morally pure existence. This involves dispersing the emotional mists in your mind which cause you to project your own weaknesses onto your partner.

OTHER ISSUES

CONTACTS AND COMMUNICATION: However strong the bonds of love, in the long term a healthy relationship also depends on the ability to listen to and understand each other. Many relationships founder on poor communication, once the fires of romance and sexuality abate. The ability to communicate is shown by Mercury in your horoscope, and the following section shows the strengths and weaknesses you have in this area, their effect on your partner, and steps you can take to improve on the contact between you.

Communication problems arise because you tend to use silence to express disapproval. Your partner does not know what you are thinking - perhaps it would pay you to make the effort to express your thoughts.

Your thoughts and concerns are centred around home and family, and sibling relationships exert a profound effect upon your mental life.

Charles's Mercury in Diana's 10th House

Diana draws on your ideas and business skills to get ahead in her career. Your talent for communication and other skills can play an important role in "selling" her as a leader.

With Mercury in Cancer, Diana is intuitive and sensitive, with a deep mental empathy and understanding of the needs of others. Charles, who has Mercury in Scorpio, has a complete appreciation of the way his partner's mind works, and few words need to be said. Diana is very vulnerable should Charles choose to be cutting - which can happen at times - and complications can arise because so much is assumed and left unsaid. There should be more talk and less mind-reading. Mercury positive Mercury: This is a very harmonious contact which creates the best possible conditions for communication and understanding. Both Diana and Charles share the same attitude of mind and find talking to each other mutually stimulating and untainted by basic disagreement. Their mental development tends to progress in tandem, so that they both can teach and learn from each other.

Aspects between the other planets in your horoscope and your Mercury will show talents or challenges with regard to your ability to express your ideas and be open to other people. These aspects describe the specific ideas you have and the kind of reactions you evoke in others through the way you communicate these ideas.

Mercury positive Jupiter

Listening and understanding

You are a gifted and intelligent person with an ability to understand others and communicate well. Humorous and tolerant, you know how to reach your partner mentally and can be very persuasive. You combine an insatiable curiosity for facts with the ability to see the truth in the larger context.

Mercury positive Neptune

An intuitive listener

You are extremely sensitive to atmosphere and the mental state of others and communicate well through feeling rather than through words. Misunderstandings arise because of a lack of directness and because you pre-empt what your partner is going to say - you think you already know what it is. It is good to verbalise more and double-check that you have it right, and are not just hearing what you want to hear.

Mercury positive Pluto

Mental detective

Secrets and hidden matters fascinate you, and you possess a deep psychological perception. You can quickly attune to your partner's psychological state and give very perceptive advice. As a listener you have a wonderful healing power. You believe in the importance of secrets, but you must take care that these do not come between you and your partner.

Mercury positive Saturn

A considered thinker

You can be shy and taciturn, and are rather defensive in intellectually challenging situations. Nevertheless, with time you attain a mature intelligence which ensures that you pay attention to what your partner says, and take good time yourself to get your message across. You may be a plodder but you get things done.

Mercury positive Uranus

An original thinker

You have a touch of genius and need the constant ping-pong of shared ideas in a relationship. Your work and your social life will reflect your unusual communicative abilities, your international and modern attitude, and your inventive mind. You expect a lot of freedom to pursue mental development.

The interaction between Mercury in the one horoscope and the planets in the other, has a profound effect on your ability to communicate with and understand each other. The following section shows the ease or difficulty your partner has in communicating with and understanding you, and the kind of situations that may arise as a result.

Irreverent remarks

This is a very stimulating contact for you intellectually, creating plenty of philosophical discussion and a general awareness of principles - particularly as regards what is right or wrong, ethically speaking. Often there are disagreements and this may be because you feel that Charles takes himself too seriously or is simply laying down the law. He likes to be right, but you prefer to see issues from several sides. In discussions you will never convince him but you give him a run for his money. Generally though, he does have deeper insights and convictions than you. He sees the big picture whilst you can lose your perspective in too much detail.

When Charles expresses his opinions, he brooks no disagreement. You may make critical remarks to weaken his arguments but ultimately there may be more dignity for you in agreeing.

Diana's Jupiter negative Charles's Mercury

Irreverent remarks

This is an intensely communicative connection and it shows a need to learn from and understand each other. However, there can be many petty disagreements about matters of principle. Charles has a tendency to poke harmless fun at you because he often experiences you as pontificating or superior. You like to be proved right - and though you often are, what use is that, if you cannot get agreement? Charles would be far more willing to learn from you if he found you to be more flexible or intellectually open or, indeed, if you would just admit to being wrong once in a while. Nevertheless you are both intellectually stimulated through being together - this contact is particularly good for travel, foreign languages and the challenges they bring and getting out and about meeting people.

Your opinions do not always accord with your partner's views and it is no use using your persuasive powers. Agree to differ.

Plans and stratagems

This contact creates a sense of mutual responsibility in the relationship - and is particularly well-suited for business ventures together. One cannot describe the bond as talkative - any desire to bubble with ideas and make light conversation are not encouraged by Charles who would prefer a concise and well-considered communication. Through this you learn to express yourself economically and truthfully. When you disagree, least said is soonest mended. Reasoned argumentation is the way forward. You should ensure that you have a shared goal which you can work towards - perhaps on an educational level. There may be a specific language challenge in the relationship.

Though you are the more outgoing one mentally and have many workable ideas, Charles has a talent for helping you organise your thoughts so that you can make constructive progress together.

Charles's Saturn positive Diana's Mercury

Plans and stratagems

This is a favourable influence on a mental level though it neither enhances nor diminishes intimacy. It is especially good for learning and for practical business ventures. You have a body of experience which can be very useful to Diana, and she will look to you for advice and guidance. You have the capacity to guide her ideas into constructive channels and help her attain her intellectual goals. However you can be perceived as too restrictive or calculating or simply too serious, and this can diminish Diana's natural ebullience and spontaneity. All work and no play can make you both dull.

You know how to use Diana's ideas and communicative talents constructively, when presented with them.

Diana's Mercury negative Charles's Uranus

A discordant note

Though not a major factor in this relationship this contact brings many unpredictable events in your life together. This can mean foreign travel or periodic separations because of work or educational matters. There are communication problems because of a tendency Charles has to interrupt you or to take a completely different line of argument when you are having a discussion. This can be very disorientating for you, scattering your thoughts in all directions. Nevertheless, you stimulate each other strongly - and this is a consciousness-raising factor in the relationship. Arguments tend to be explosive - the trick is not to let yourself get provoked. Sometimes it is as if you speak a completely different language.

Charles keeps you constantly on the ball mentally with unpredictable or provocative changes of direction. Don't let this throw you and you will manage OK.

Diana's Neptune negative Charles's Mercury

Foggy communication

Though not the most powerful influence this contact can lead to misunderstanding in your communication together. If you are around the same age then the problems Charles might have generally with speaking clearly and making himself understood, become projected onto you. In general, thinking you have grasped what Charles is saying, you may often misinterpret things, or whilst striving to understand, you may feel your mind getting more and more foggy. This problem is compounded by an innate desire not to offend which can mean that half-truths are told. Alternatively you may say what you think the other person wants to hear. When communicating, you must grasp the nettle and say exactly what is on your mind, no matter what you think the consequences may be.

The messages from Charles leave you feeling more confused than enlightened. Ask for clarification and stick with it until you've got it.

Diana's Mercury negative Charles's Pluto

Interrogation

Although this may not be a major influence in your relationship, this contact does tend to complicate communication. Nothing can be said lightly, every remark can be made the object of in-depth analysis. Exhausting discussions tend to drag on about seemingly meaningless issues. Actually the issues are intelligence and power. Your natural communicativeness evokes irrational anxiety in Charles who subconsciously responds in an obstructive or suspicious manner. This only serves to make you keep your mouth shut and as a result, long periods of silence may ensue. He has the resources to keep this up indefinitely. Your awareness that this habit is based on his deep-seated anxiety can help you defuse this potentially destructive communication-pattern.

Diana's Pluto positive Charles's Mercury

A psychological journey

This influence has a powerful effect mentally, catalysing a latent capacity in Charles to conduct deep investigations on an inner and an outer level. You make quite an investigative team and this could be expressed as an ability to help yourself and others psychologically and to use subtle communication tools in this process. Your partner's thoughts and ideas trigger the inner depths of your subconscious, often helping you to unearth forgotten memories. For your part, you force Charles to constantly reassess his ideas and throw out outdated approaches. You have the ability to communicate secretly together.

Charles's Uranus negative Diana's Mercury

A discordant note

This is a very stimulating contact on a mental level but it is questionable whether much productive comes out of it. Whenever Diana comes with an idea you tend to throw it back at an angle that is impossible to catch. In other words, you do not communicate smoothly, and you seem to think that it is your job to constantly bombard her with new ideas which are often irrelevant to her train of thought. Such a high degree of dissonance wears the nerves too thin, so it would pay for you to listen more and help Diana maintain her train of thought - whether it is in her daily communication with you or in connection with long-term studies which Diana may embark on.

Your bizarre behaviour and ideas are a constant source of puzzlement to Diana who consequently finds herself thinking in ways she has never done before.

Mercury Charles negative Neptune Diana

Foggy communication

Though not a major influence, this connection aggravates a latent tendency to avoid unpleasant truths with evasions and half-lies. Neither of you likes to create a bad atmosphere through disagreement. You feel that Diana has high - perhaps unrealistic - expectations of you and you do not want to disappoint her. Misunderstandings arise through lack of clarity and the tendency to say what you think she wants you to say. The solution is to be direct and honest and thus remove any illusions Diana may have about you. This contact demonstrates the meeting of the rational and the irrational - and the resultant confusion.

Even when you express yourself clearly you will find that you seem to evoke confusion in your partner. This may be because you trigger her fertile imagination - give Diana time to absorb your thoughts and ideas.

Charles's Pluto negative Diana's Mercury

Interrogation

This influence has a powerful effect on a mental level as you tend to exacerbate a latent tendency Diana has to wrestle with her thoughts to the point of exhaustion. Irrational worries and suspicions may plague the relationship and result in lengthy interrogations about your motivations and secrets at one extreme, and punishing silences at the other. Even though it may be difficult for you, you should try to allay your partner's suspicions through the antidote of openness and avoid getting drawn in to futile discussions which only serve to exhaust you both. You have considerable hypnotic power over Diana and you may be tempted to misuse this by playing on her anxieties. It would help you both to learn about the nature of the mind through psychological interests.

Charles's Mercury positive Diana's Pluto

A psychological journey

Though not major, this contact is favourable for evoking a deep psychological understanding in you. You find Diana unfathomable and this brings out your investigative nature. You would make a good pair of detectives. Together you can discover secrets and unveil long-hidden factors to gain insight and knowledge. The greater the age-difference between you the more significant this contact is. Much of your communication could be non-verbal - she knows how to read your mind, though the opposite is certainly not true. However, you can help Diana express long-repressed memories and act as a catalyst for releasing old traumas. Long and deep conversations into the night bring secrets into the light.

Your uncompromising no-nonsense attitude helps Charles to cut through to the core of any issue.

Diana's mind is a constant source of mystery to you. Layer after layer is unveiled in a constant process of transformation, but no final answers are reached.

Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Mercury/Pluto: This will express itself in the intense way you both communicate, the drive to go into depth on issues, and the tendency to cross-examine each other.

 BELIEFS AND UNDERSTANDING: The planet Jupiter shows the area in your life in which you express optimism, hope, and a belief in the future. When transposed onto your partner's horoscope it shows where you can most inspire your partner. The following section shows how and where you bring insight and understanding and in which area of your partner's daily life you have a very beneficial effect.

Diana's Jupiter in Charles's 6th House

Charles feels that you have a great spirit of tolerance and understanding which helps him get through daily hassles with an optimistic attitude. Your influence and guidance can be a great help in his working life, particularly because you help him see the meaning in and importance of integrating himself into something greater through work.

Mercury positive Jupiter

Listening and understanding

You are a gifted and intelligent person with an ability to understand others and communicate well. Humorous and tolerant, you know how to reach your partner mentally and can be very persuasive. You combine an insatiable curiosity for facts with the ability to see the truth in the larger context.

Venus positive Jupiter

Cornucopia of love

You are an extremely loving and romantic person and this brings both benefits and problems. Often you fall in love with love and have difficulty settling into stable relationships because of your hunger for romance. Faithfulness may not be a strong point though sooner or later there will be a tendency to tighten-up your moral values, regarding love. Your attentiveness makes your loved one blossom. The most important value for you in a relationship is intellectual or cultural stimulation. Relationships bring travel and an expansion of horizons.

You have a natural femininity and you are confident of your attractiveness to men because of your ability to combine charm with intelligence and good judgement. You are attracted to wise or influential men, and often rise in status through marriage.

Charles's Jupiter in Diana's 1st House

You have a very positive effect on the way Diana lives her life and the path she chooses. You bring insight and hope and a vision for her, regarding the direction she takes. You will often find yourself assuming the role of mentor - and generally she will find your views and guidance helpful and valuable.

Moon positive Jupiter

Emotional generosity

You have a magnanimous and warm emotional nature with great tolerance and a fine sense of humour. Travels and cultural events augment your understanding of others. Your positive attitude creates fortunate circumstances both economically, and in terms of your feelings of security.

You are attracted to a tolerant and understanding woman who can combine a love of excitement with the pleasures associated with a home and family. Your own generosity of spirit evokes a positive reaction in your partner.

Mars positive Jupiter

Winner

You are a courageous pioneer - a battler for what is just and fair. Brave, outgoing and full of opinions about life, you will travel and better yourself intellectually to widen your philosophical horizons. With your self-assurance and insight, you are a very persuasive person and generally win others to your point of view. Basically you get what you aim for. This is also true in love, where the major priorities for you are freedom, wisdom and a positive attitude to life.

You have a strong sexual appetite and the power to attract the object of your desires, through your innate masculinity and insight into life. You do not like being restricted however, and you have few moral qualms when applying the arts of seduction. Jealousy is not something you have respect for.

Mutuality: Please note that in this case both Diana and Charles have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive: As the shared aspect is positive for you both, it will give great happiness, and give you both a pool of resources to draw from. You will share the same area of interest and activity,

and agree in your outlook on this area. Jupiter/Saturn: The big issues for you both are your capacity for social integration and finding a balance between the experience you gain from difficult times with the faith you feel in the future.

Doubt in the future

You often find your dreams and visions of the future muddled by a negative attitude on Charles's part. He may consider your ideas unrealistic and your expectations out of proportion. There may be some truth in this view, and it would pay you to tone down over-optimism and take a more sober view of the future. On the other hand he may feel insecure about his potential, especially in contrast to what he experiences as your blasé approach. This oscillation between being positive and being negative leads to a stop/start approach to life's challenges, and can prevent you from climbing the ladder to success. Your goals may be different, so mutual respect for each other's values is essential.

Your future dreams awake only resistance in Charles. Your insights meet a brick wall. You can use your understanding to dispel the insecurity which lies behind the negativity.

Diana's Uranus positive Charles's Jupiter

Vision of the future

Though this contact does not affect your personal and emotional life so much, it is very favourable for personal growth, particularly in terms of new beliefs and sudden insights. Your unusual angle on life provokes Charles to take another look at his convictions and intellectual concepts and see them in a new light. You strongly stimulate the pioneer spirit in him, and this should bring many travels to exotic lands and new inputs from exciting cultures. You evoke philosophical growth in Charles, particularly concerning New Age concepts and the introduction of modern ideas. This brings out the spirit of reform and renewal in you both.

Your ability to make radical changes and to be completely open to the future has a strong awakening influence on Charles's mind.

Diana's Jupiter positive Charles's Neptune

Boundless vision

Though this is not a major influence in terms of intimacy, at its best it can bring spiritual expansion and existential understanding. Intellectually there is a kind of boundlessness in which everything becomes possible. Fantasy is empowered, so that dreams assume real importance and play an major role in the relationship. There is however, no guarantee that dreams can be realised and great care has to be taken not to get out of your depth. When you present Charles with a vision or simply express optimism about the future, the flames of his fantasy are fanned and you can lose all sense of perspective in the brush fire which results. However, if you keep your dreams under tight control and channel your ideals - for example in a spiritual or humanitarian area - then the sky's the limit.

Charles is easily swayed by your opinions and convictions. You can be very influential, so if your head's in the clouds, at least keep your feet on the ground.

Ideological fanaticism

Though this contact is not a major emotional factor in your relationship it does affect your beliefs and ideologies, which are dramatically shaken up and transformed through contact with Charles. Many of your views and visions about the future awaken anxiety in him, though he will not show it, reacting instead by vetoing them or creating scenes of exhausting intensity, characterised by intense discussions about matters of supposed principle. The fact is he is prepared to risk everything in ideological discussions with you, even though your relationship may be healthy enough in other areas. Beliefs may be the subject of ultimatums conveyed from him to you, with the result that you find yourself adopting views with which you are

Though not a major influence in terms of emotional harmony this contact is, nevertheless, important concerning your views and attitudes. Where Diana is optimistic you see the pitfalls, where she expresses hope you point your heavy hand to bitter experience, where she sees the hand of providence you see the hand of fate. This means that you tend to limit the potential for expansion in the relationship, particularly with regard to career and status. Of course it may be necessary to preach caution when Diana is unrealistic or over-optimistic, but try to channel your partner's positive attitude into constructive channels, instead of simply being negative.

Hope and faith are valuable commodities, so don't put them down when Diana expresses them.

Though this influence does not really affect your intimate life, it certainly brings enormous excitement and personal growth. Whether you travel, or stay at home, you stimulate each other in a consciousness-raising process. Your desire for growth and understanding is kick-started by Diana, who is always full of surprises and unusual angles on life. Though not an influence which strongly affects your everyday life this contact is nonetheless very favourable on a spiritual level. The faculties of your imagination find fertile ground in Diana, who understands and appreciates your dreams and has a tremendous capacity to make them happen through the power of her faith. Being with Diana awakens your dreams of the future, not just for yourself but for everyone you meet. In other words, your altruistic interests are stimulated and there is an intoxicating enthusiasm to achieve a dream - or utopia. Whether anything concrete is achieved is another matter however. Though not so powerful in your personal everyday life this contact brings tensions on an ideological level - tensions which may have been in Diana as a potential before she met you. Confrontations arise between her and you over deeply-held beliefs. You stand for an implacable evolution of thoughts and ideas, which prevents her being comfortable with the views she espouses. At times Diana will feel that you are prepared to sacrifice the integrity of the relationship for the sake of an ideal. If you find yourself introducing ultimatums over spiritual, philosophical or psychological issues then you are being led astray by what in fact is your own existential anxiety. You both have to be careful not to get drawn into powerful organisations

The power of shared convictions

Though not so strong in your personal life on an everyday basis, this contact has a powerful effect on your beliefs and ideology. Charles feels challenged by your intensity and psychological insight and you force him to re-examine many of the convictions he has held dear, on many different levels. No one set of beliefs will last - there will be a constant intellectual evolution for you both. Together you may have an impact on belief-systems in society and wield considerable influence if you so choose. You educate each other in the power of faith and of positive thinking and this, in turn, may help you transform your future and realise your highest spiritual or psychological potential.

Together you make quite an investigative team, if you are interested in spiritual or philosophical truths. You can expect your intellectual or spiritual foundations to be transformed through contact with Diana, who will often take you to your limits and beyond. You can get involved in powerful organisations which wield considerable influence over people's minds, so take care that your motivation is of benefit to all. Big money may also play a role. Above all, make sure people come before principles.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Jupiter/Pluto: This influence gives you both a tendency to be attracted to powerful ideologies. The challenge for you is to deny these ideologies any priority over the love you feel for each other.

 CHALLENGES AND POWER GAMES: The planet Saturn shows where you experience and overcome the major challenges of life. Transposed onto your partner's horoscope, it shows in which area of your partner's daily life you make the greatest demands on your partner's patience and sense of responsibility, and what kind of challenges arise as a result. There is no escaping the difficulties encountered here, but this influence is nevertheless a major growth factor in the relationship.

Diana's Saturn in Charles's 6th House

Living with Charles forces you to consider how your life together might be better organised. You are quick to point out flaws and weaknesses in your partner, particularly as regards everyday duties such as house-cleaning, cooking, etc. Basically, you are aware of when he shirks his responsibilities and insistent upon his learning greater self-discipline in this respect. You may be justified in feeling as you do, particularly as you will otherwise find yourself getting weighed down by your own commitments and duties. In the long run your desire for better organisation can be beneficial.

Plans and stratagems

This contact creates a sense of mutual responsibility in the relationship - and is particularly well-suited for business ventures together. One cannot describe the bond as talkative - any desire to bubble with ideas and make light conversation are not encouraged by Charles who would prefer a concise and well-considered communication. Through this you learn to express yourself economically and truthfully. When you

With Diana, you will find that you have to work hard to remove blockages in emotional intimacy. The challenge for her is to overcome her fear of opening up to you. You have to spend more time delving into each other's frustrated emotional needs. Often there will be difficulties administering a shared economy - but actually your dissatisfaction about your material situation is a reflection of your emotional frustration. Your sex life with her will be complex and challenging. Your life together will improve both materially and sexually if you overcome vulnerability and shyness and learn to let down your barriers.

Plans and stratagems

This is a favourable influence on a mental level though it neither enhances nor diminishes intimacy. It is especially good for learning and for practical business ventures. You have a body of experience which can be very useful to Diana, and she will look to you for advice and guidance. You have the capacity to guide her ideas into constructive channels and help her attain her intellectual goals. However you can be perceived as too

disagree, least said is soonest mended. Reasoned argumentation is the way forward. You should ensure that you have a shared goal which you can work towards - perhaps on an educational level. There may be a specific language challenge in the relationship.

Though you are the more outgoing one mentally and have many workable ideas, Charles has a talent for helping you organise your thoughts so that you can make constructive progress together.

Doubt in the future

You often find your dreams and visions of the future muddled by a negative attitude on Charles's part. He may consider your ideas unrealistic and your expectations out of proportion. There may be some truth in this view, and it would pay you to tone down over-optimism and take a more sober view of the future. On the other hand he may feel insecure about his potential, especially in contrast to what he experiences as your blasé approach. This oscillation between being positive and being negative leads to a stop/start approach to life's challenges, and can prevent you from climbing the ladder to success. Your goals may be different, so mutual respect for each other's values is essential.

Your future dreams awake only resistance in Charles. Your insights meet a brick wall. You can use your understanding to dispel the insecurity which lies behind the negativity.

Diana's Uranus negative Charles's Saturn

Blowing bridges

Though not so important in your personal life this influence can have quite a strong effect in those areas of your partner's life where he feels most established. You encourage Charles to throw off the bonds of authority and break down the hold of tradition on his life. You may feel that you have a role to play in releasing him from what you see as some sort of bondage to society. However just because you appreciate your own freedom in a particular area, this does not mean that the same kind of freedom is beneficial for him - perhaps he needs to have foundations precisely where you have forsworn them. At times of change your willingness to make a clean break is not shared by Charles who feels a greater responsibility to his ties, and you should make allowances for this.

Making dreams real

Though not strong on a personal level this may be quite a useful contact for realising and grounding your visions. Your concern for those who are unfortunate in the world and your desire to relieve suffering may be channelled through Charles into practical ventures which may ameliorate social problems. It is probable that some form of collective unhappiness will touch you both in some way and that you will be inspired to do something practical about it. Together there is an acceptance of adverse circumstances without feeling helpless, and a spiritual recognition of the nature of the human predicament.

Your vision and idealism helps Charles decide where to concentrate his ambitions in times of change.

Diana's Pluto negative Charles's Saturn

Demolition

Though not so significant on a personal level in everyday life, this contact brings issues of power and authority to the fore. At times of crisis an atmosphere of ultimatum may pervade your relationship, in which Charles's experience and authority are

restrictive or calculating or simply too serious, and this can diminish Diana's natural ebullience and spontaneity. All work and no play can make you both dull.

You know how to use Diana's ideas and communicative talents constructively, when presented with them.

Charles's Saturn negative Diana's Jupiter

Doubt in the future

Though not a major influence in terms of emotional harmony this contact is, nevertheless, important concerning your views and attitudes. Where Diana is optimistic you see the pitfalls, where she expresses hope you point your heavy hand to bitter experience, where she sees the hand of providence you see the hand of fate. This means that you tend to limit the potential for expansion in the relationship, particularly with regard to career and status. Of course it may be necessary to preach caution when Diana is unrealistic or over-optimistic, but try to channel your partner's positive attitude into constructive channels, instead of simply being negative.

Hope and faith are valuable commodities, so don't put them down when Diana expresses them.

Charles's Saturn negative Diana's Uranus

Blowing bridges

This contact, though not particularly prominent in your everyday life together, shows conflicts arising concerning your need to maintain the status quo and your partner's need to sweep away the restrictions of the past and embrace change. At times when the structures of your life are battered by the forces of renewal you tend to shore up the damage, insisting on the benefits of tried and trusted methods - methods which can often be shown to have failed. Diana on the other hand goes to the other extreme, having little respect for what has worked successfully in the past. Furthermore she has a tendency to threaten to abandon what you have built up together, putting you in a very weak position. Try to make important changes using a process of negotiation which satisfies your disparate needs and methods.

Making dreams real

This contact is not going to affect the relationship on a very personal level. However it is important in terms of your visions and goals. You connect with the ideals which Diana embraces and have the ability to put them into practice. This can come to expression in smaller creative projects but it is particularly strong if you wish to realise social or spiritual goals. There is an awareness of unhappiness or suffering which plays a role in the relationship, and the recognition of the need to accept fate with a reflective patience. This awareness may lead to your getting involved in helping unfortunate people in some way or working with sickness.

Diana can come up with imaginative solutions even when you think there is no way forward.

Charles's Saturn negative Diana's Pluto

Demolition

Though not normally so important on a personal level this contact is nevertheless significant whenever power or powerlessness are issues. Whenever there is a battle of wills you will find that your normal decisiveness and authority is

pitted against something even more powerful in yourself. This is a battle which you are ultimately destined to win, though you reap no advantage from it. This is because you are prepared to see the hard-won structures of your life shipwrecked on the rock of your wilfulness, whilst Charles is not prepared to lose what he has invested in the relationship. In your outer life there are dangers through involvement with powerful institutions, whether they are institutions of state or more secretive underworld groups. In both your personal and public lives it is important to extricate yourselves before damage is done.

You have very little respect for your partner's struggle to build something lasting between you.

effectively trumped by Diana. Why? she is prepared to take a loss, you are not. She is willing to see the whole edifice of your relationship crumble to achieve her will and you are not. It is therefore wise to side-step irresolvable issues if you want to avoid unpleasant ultimatums. Psychological issues may also be important in the relationship, perhaps because of Diana's tendency to go to extremes when confronted by what she sees as your inflexibility.

At times of crisis Diana may show little respect for what you have built up, so take care.

HOME AND CAREER: The IC/MC axis (the vertical axis of the horoscope representing the beginning of the 4th and 10th Houses) shows domestic and career drives. Contacts between planets in one horoscope and this axis in the other will show how you influence each other in these areas. This can be particularly important if you share career interests, or if family matters are paramount.

Fame and fortune

Your career is strongly linked to Charles's character and force of personality. He identifies powerfully with your goals, and invests his influence in ensuring that recognition and success come your way. You too may make it your goal to promote the success of your partner. Charles respects your family foundations and your ability to define what you want in life, and with him behind you, you can go far.

Charles's influential pull has powerful effect on your career and family goals.

Fame and fortune

You identify strongly with Diana's goals and visions and are willing to invest your prestige in mutual ventures which may benefit you both. This contact can bring professional success, either with you yourself as a figurehead, or through your influence. Matters of love however, are more complex, as the bond shown is more parental or family-oriented than romantic. Diana may look up to you and expect you to give her a sense of direction and this can evoke your leadership qualities though this may not be the basis of an equal relationship.

You will often find that Diana will realign her goals according with your vision. As such you become exalted as an authority with all the advantages and dangers this brings.

Divergence through career Fame and fortune

This strong bond shows your deep-rooted attachment to Charles, often based on matters concerned with the past. Whilst you are a source of inspiration to him - he tends to modify his goals according to your lead - there will be times when your ways diverge. This is either because you require too much of your partner's attention with domestic matters or because there is a conflict of interest in professional matters. Your partner has to assert his professional needs even if it hurts your pride. At times of self-discovery and self-realisation in particular, you may feel that a change of career or abode is called for, which may be very disruptive - temporarily at least. If your emotional bonds are strong there is no profound negative effect in the long run unless the relationship is based on outdated feelings of over-dependency.

Charles's MC negative Diana's Sun

Divergence through career

This connection shows a strong bond between you, particularly in the areas of career and family. Your personal goals in this area, however, may not accord with Diana's sense of mission in life. As long as there is mutual respect for each other's goals, no major problem should arise here. It is important for you to allow Diana to find and define herself as a separate individual, rather than insisting on a commitment from her side to your goals or family values.

When Diana insists on following what is really right for her, this necessitates considerable upheaval in your career or family life.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Sun/MC: This will be most apparent in the way you handle your commitment to self-realisation in society and the demands of both family and career.

Shared achievements

This is quite a dynamic combination as far as professional matters are concerned. Charles will invest a lot of energy fighting some of your professional battles, and he can be an important tool for your career progress. His courage, dynamism and good humour make him an important ally, and together you can be sure of success in achieving your goals. He has the energy to help you both on the professional and the domestic front.

The energy and enthusiasm which Charles demonstrates enables you to tackle greater challenges in your career.

Diana's MC negative Charles's Saturn

Dead weight

This influence has a strong effect on your career and domestic life. You sense that Charles makes a lot of demands on you in both these areas, particularly in terms of hard work and responsibility. Unfortunately this attitude does not make it any easier for you to achieve your ambitions, and generally simply results in you losing your confidence. You may feel that no matter how hard you work, you cannot live up to his expectations. By taking more personal responsibility and gaining greater self-sufficiency, you can relieve the pressure Charles feels to push you along.

You provide very dynamic support for Diana as far as achieving her goals are concerned. Though not romantic in any way this contact is very good for a professional partnership in which you have a leadership role or at least take the initiative in some way. Together you can assert your vision of the future and overcome any resistance in your path. As a team you have the capacity to be on the winning side. In family matters you encourage independence and enterprise.

Diana can see the perspective of your initiatives and strives to incorporate them into her long-term career-goals.

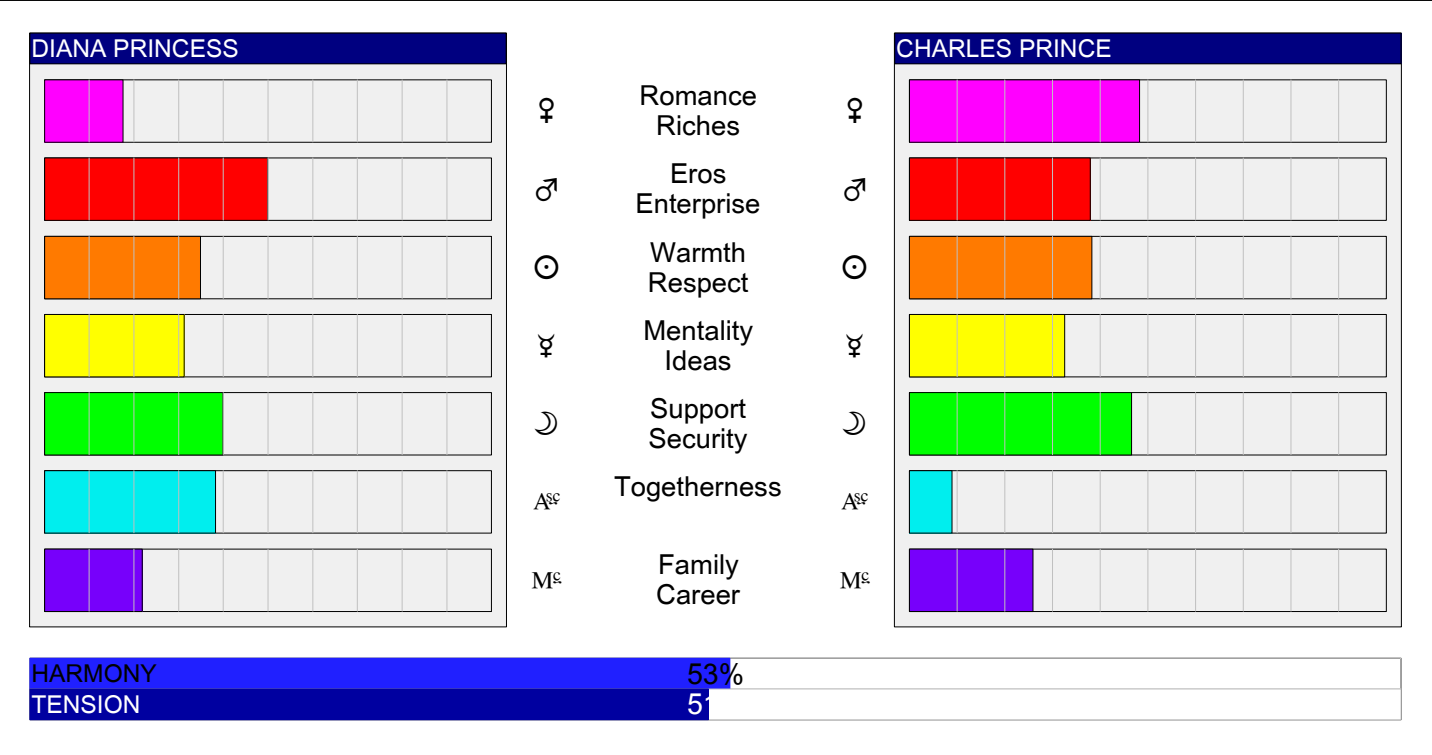

Charles's Saturn negative Diana's MC

Dead weight

Though not a major influence in your personal lives this contact can bring problems whenever changes arise in Diana's professional and family concerns. Your plans and strategies for her may be quite different from those she has. You have a tendency to steer or control her direction in these matters but you are often unaware of the need for change which she feels. Not all problems can be resolved through self-discipline and determination, and Diana needs to feel that you support her in what she wants to do, instead of seeing you adopt an inflexible parental role.

COMPATIBILITY:

The graph which follows shows at a glance to what extent both partners fulfil each other's needs in major areas of life. As each partner will experience the contact quite individually, there are separate columns for both. Each column of the graph is double, reflecting contacts which are either harmonious or disharmonious. Though, from the point of view of pleasure, harmonious contacts are to be preferred, disharmonious contacts also show compatibility and can be very stimulating. There has to be something to work on and overcome in a relationship. The final column shows general compatibility between both people. (The graph is based on all major and minor aspects and is fine-tuned to the exactitude of planetary orb).
